Management's Discussion and Analysis of Financial Condition and Results of Operations

For the three and six months ended June 30, 2006

Management's Discussion and Analysis ("MD&A") presents an analysis of the financial condition of AGF Limited Partnership 1990 ("the Partnership") as at June 30, 2006 compared with December 31, 2005, and the results of operations for the three and six months ended June 30, 2006 compared with the corresponding periods of 2005. This discussion should be read in conjunction with our 2005 annual MD&A and 2005 annual audited financial statements and notes. The financial information presented herein has been prepared on the basis of Canadian generally accepted accounting principles ("GAAP"). Certain amounts or percentages are calculated using numbers rounded to the decimals that appear in this MD&A. All dollar amounts are in Canadian dollars.

There have been no material changes to the information discussed in the following sections of the 2005 annual MD&A: 'Significant Accounting Policies' and 'Corporate Governance'. Accordingly, readers should refer to our 2005 annual MD&A to gain an understanding of how these matters may impact the Partnership's operating results.

The MD&A includes forward-looking statements about the Partnership. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", or negative versions thereof and similar expressions. The MD&A contains forward-looking statements that are based on current expectations and projections about future events and are inherently subject to, among other things, risks and uncertainties beyond the Partnership's control. These risks and uncertainties include economic conditions, market fluctuations, interest rate and foreign exchange movements, political events, regulatory change and competitive developments. The reader is cautioned to consider these and other factors carefully and not place undue reliance on forward-looking statements. We are under no obligation (and expressly disclaim any such obligation) to update or alter the forward-looking statements whether as a result of new information, future events or otherwise. Actual results could differ materially from those contemplated by the forward-looking statements.

FORMATION AND BUSINESS OF AGF LIMITED PARTNERSHIP 1990

The Partnership was formed on January 3, 1990 for the purpose of arranging for the distribution of securities of certain mutual funds ("Distributed Securities"), which form part of the AGF Group of Funds, which were sold on a contingent deferred sales charge basis. The Partnership paid the selling commissions on such securities.

As at June 30, 2006, the Partnership has total issued and outstanding units of 85,001. The units do not qualify as investment for registered tax plans such as RSP, DPSP and RIF.

REVENUE

The Partnership's primary sources of revenue are distribution fees and deferred sales charges earned from the Distributed Securities to which it has distribution rights. The redemption fee schedule applicable to the Distributed Securities has expired. As a result, the Partnership will no longer receive any deferred sales charges. The future stream of revenues is a function of the market value of these assets and the rate and timing of the redemptions of the underlying assets.

DISTRIBUTION FEES

The Partnership receives from AGF Funds Inc. ("AGFFI"), a subsidiary of AGF Management Limited ("AGF"), a monthly distribution fee calculated on an annual basis of 0.50% of the net asset value of the remaining Distributed Securities, which remain outstanding.

AGF Limited Partnership 1990

Management's Discussion and Analysis of Financial Condition and Results of Operations

Distribution fees amounted to \$29,820 for the three months ended June 30, 2006, a decrease of 12.7% from the comparable period in 2005. During the six months ended June 30, 2005, distribution fees declined 13.2% to \$61,401 from \$70,752 in the same period last year. The decreases were primarily attributable to the lower net asset value of Distributed Securities for the three and six months ended June 30, 2006 as compared to the respective year-ago periods.

The following is a summary of the changes in Distributed Securities during the three and six months ended June 30, 2006 and 2005, respectively:

(in thousands) (Unaudited)	Three months ended June 30		Six months ended June 30	
	2006	2005	2006	2005
Market value of Distributed Securities, beginning of period	\$ 25,163	\$ 28,409	\$ 25,378	\$ 30,442
Change in market value of Distributed Securities, including				
Reinvested distributions	(824)	506	772	1,052
Redemption of Distributed Securities	(1,208)	(1,971)	(3,019)	(4,550)
Market value of Distributed Securities, end of period	\$ 23,131	\$ 26,944	\$ 23,131	\$ 26,944

The annualized redemption rate during the six months ended June 30, 2006 based on the market value of Distributed Securities at the beginning of the year was 23.8% compared to 29.9% in 2005. Redemptions accounted for \$3.0 million of the decline in the value of Distributed Securities during the six months ended June 30, 2006, offset by market appreciation and reinvested distributions totaling \$0.8 million.

DISTRIBUTED SECURITIES COMPOSITION

The composition of Distributed Securities as at June 30, 2006 and 2005 are shown in the table below. The relative weighting of each asset class will change over time, based on performance, redemptions, and unitholder switches between funds.

REVENUE TERMINATION DATES

The Partnership will continue to receive distribution fee revenue for as long as Distributed Securities remain outstanding or until the Partnership is dissolved, whichever is earlier. The distribution fee in respect of such Distributed Securities will continue to be payable to the Partnership notwithstanding the expiry or earlier termination of the Partnership's distribution right.

The redemption fee schedule applicable to the Distributed Securities has expired.

OPERATING EXPENSES

Total operating expenses for the three months ended June 30, 2006 were \$13,597, a decrease of 1.2% from \$13,758 in 2005. During the six months ended June 30, 2006, total operating expenses amounted to \$26,482, a decrease of 2.5% from \$27,159 in the same period in 2005. The decreases were primarily attributable to the decrease in administration fees.

FINANCIAL CONDITION AND LIQUIDITY

Total assets were \$82,272 as at June 30, 2006 as compared to \$66,833, as at December 31, 2005. Assets as at June 30, 2006 consisted of cash and term-deposit totaling \$72,634 and receivables of \$9,638. These assets were used primarily to finance the quarterly distributions payable to limited partners.

As at June 30, 2006, the total amount of uncashed distribution cheques included in cash and distributions payable was \$37,874.

The Partnership was formed to finance selling commissions during a fixed period of time, after which the Partnership collects the fees to which they are entitled with no significant ongoing financial obligation other than the ordinary operating expenses. The Partnership distributes its income to limited partners on a quarterly basis and does not retain permanent investment assets.

FINANCIAL INSTRUMENTS

The Partnership's financial instruments consist of cash and term-deposit, distribution fees and interest receivable, accounts payable and accrued liabilities, and distributions payable. Unless otherwise noted, it is management's opinion that the Partnership is not exposed to significant interest rate, credit, or currency risks arising from these financial instruments.

CASH DISTRIBUTIONS AND TAXABLE INCOME

The Partnership itself is not directly subject to income tax. Instead, the Partnership's income or loss for tax purposes is calculated and flowed through to limited partners. Limited partners who beneficially hold the Partnership units on December 31 of any year are allocated income or loss for tax purposes based on the entire year's income or loss. This means that any limited partner who purchases units part way through the year and holds these units at year end is allocated taxable income or loss for the entire year, regardless of the cash distributions actually paid to them. In other words, taxable investors who purchase the Partnership units that generate taxable income part way through the year and hold these units at year-end would have a tax liability based on the taxable income of the entire year and not just on the cash distributions they have received.

Cash distributions are paid quarterly to limited partners of record on March 31, June 30, September 30 and December 31.

AGF Limited Partnership 1990

Management's Discussion and Analysis of Financial Condition and Results of Operations

Cash distributions and estimated taxable income for the three months ended June 30, 2006 were \$0.19 per limited partnership unit as compared to \$0.24 per limited partnership unit for the same period in 2005. Cash distributions for the six months ended June 30, 2006 amounted to \$0.41 per unit and \$0.51 per unit for the same period in 2005. Cash distributions per limited partnership unit for the eight most recent quarters are shown below.
