Management's Discussion and Analysis of Financial Condition and Results of Operations

For the years ended December 31, 2010 and December 31, 2009

Management's Discussion and Analysis ("MD&A") presents an analysis of the financial condition of AGF Master Limited Partnership ("Master LP") as at December 31, 2010 compared with December 31, 2009, and the results of operations for the year ended December 31, 2010 compared with the corresponding period of 2009. This discussion should be read in conjunction with our audited financial statements and notes for 2010. The financial information presented herein has been prepared on the basis of Canadian generally accepted accounting principles ("GAAP"). Certain figures are rounded to the nearest two decimal places and all dollar amounts are in Canadian dollars.

The MD&A includes forward-looking statements about Master LP. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", or negative versions thereof and similar expressions, or future or conditional verbs such as 'may', 'will', 'should', 'would' and 'could'. The MD&A contains forward-looking statements that are based on current expectations and projections about future events and are inherently subject to, among other things, risks and uncertainties beyond Master LP's control. These risks and uncertainties include economic conditions, market fluctuations, interest rate and foreign exchange movements, political events, regulatory change and competitive developments. The reader is cautioned to consider these and other factors carefully and not place undue reliance on forward-looking statements. Other than specifically required by applicable laws, we are under no obligation (and expressly disclaim any such obligation) to update or alter the forward-looking statements whether as a result of new information, future events or otherwise. Actual results could differ materially from those contemplated by the forward-looking statements.

FORMATION AND BUSINESS OF AGF MASTER LIMITED PARTNERSHIP

Master LP was formed through the mergers of eleven AGF and 20/20 limited partnerships (the "Merging Partnerships").

The Merging Partnerships were formed for the purpose of arranging for the distribution of securities of certain of the AGF and 20/20 mutual funds, which were sold on a contingent deferred sales charge basis ("Distributed Securities"). The Merging Partnerships paid selling commissions to registered dealers ranging from 4% to 6% of the purchase price of such securities.

As at December 31, 2010, Master LP has total issued and outstanding units of 8,568,159 (2009 – 8,568,159). These units of Master LP are listed for trading on the Toronto Stock Exchange (the "Exchange") under the symbol AFP.UN. The units also qualify for investments by registered tax plans such as RSPs and RIFs.

REVENUE

Master LP's primary source of revenue is distribution fees earned from the Distributed Securities to which it has distribution rights. The future stream of revenues is a function of the market value of these assets and the rate and timing of the redemptions of the underlying assets.

The redemption fee schedule applicable to the Distributed Securities has expired and the Master LP no longer receives any redemption fee revenue.

AGF Master Limited Partnership

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following table illustrates the breakdown of distribution fee revenue and interest revenue for the years ended December 31, 2010 and December 31, 2009, respectively:

Years ended December 31	2010	2009	% Change
Distribution fees	\$ 1,523,055	\$ 1,995,125	(23.7)
Interest	6,528	6,861	(4.9)
Total	\$ 1,529,583	\$ 2,001,986	(23.6)

DISTRIBUTION FEES

Master LP receives a monthly distribution fee calculated at annual rates ranging from 0.50% to 0.90% of the net asset value of the Distributed Securities which remain outstanding. The net asset value of Distributed Securities is primarily affected by the market performance and redemptions of Distributed Securities. Distribution fees accounted for 99.6% and 99.7% of Master LP's total revenue in the years 2010 and 2009, respectively.

Distribution fees amounted to \$1.5 million in 2010 as compared to \$2.0 million in 2009. The decrease of 23.7% in distribution fees was primarily attributable to the decline in net asset value of Distributed Securities from \$386.4 million as at December 31, 2009 to \$274.2 million as at December 31, 2010.

The following is a summary of the changes in Distributed Securities for 2010 and 2009:

(Unaudited)	(in thousands)	
Years ended December 31	2010	2009
Market value of Distributed Securities, beginning of year	\$ 386,438	\$ 459,014
Change in market value of Distributed Securities, Including reinvested distributions	(54,058)	5,175
Redemption of Distributed Securities	(58,199)	(77,751)
Market value of Distributed Securities, end of year	\$ 274,181	\$ 386,438

The 2010 annual redemption rate based on the market value of Distributed Securities at the beginning of the year was 15.1% compared to 16.9% in 2009. Redemptions of \$58.2 million and market depreciation of \$54.1 million accounted for the decline in the value of Distributed Securities during 2010.

DISTRIBUTED SECURITIES COMPOSITION

The composition of Distributed Securities as at December 31, 2010 and 2009 are shown in the table on page 4. The relative weighting of each asset class will change over time, based on performance, redemptions and unitholder switches between funds.

	\$ 274,181		

Master LP will continue until March 31, 2018 unless procedures as specified in the Master LP partnership agreement for the dissolution of Master LP are commenced earlier upon the occurrence of certain events stated in the Master LP partnership agreement.

INTEREST

Interest earned on the regular bank account held by the Master LP in 2010 was \$6,528 as compared to \$6,861 in 2009. The decrease was primarily due to the decrease of distribution fee revenue earned.

As at December 31, 2010, cash held by Master LP amounted to \$1.5 million as compared to \$2.0 million at December 31, 2009.

AGF Master Limited Partnership

OPERATING EXPENSES

Total operating expenses for the year ended December 31, 2010 were \$279,364 compared to \$290,286 in 2009.

FINANCIAL CONDITION AND LIQUIDITY

Total assets were \$1.7 million as at December 31, 2010 as compared to \$2.1 million as at December 31, 2009. Assets as at December 31, 2010 were used primarily to finance the annual cash distributions of \$0.15 per limited partnership unit paid on January 28, 2011 to limited partners of record on December 31, 2010.

The total amount of uncashed distribution cheques included in cash and distributions payable was \$335,904 as at December 31, 2010 which remain unchanged compared to a year ago.

The Merging Partnerships were formed to finance selling commissions during a fixed period of time, after which the Merging Partnerships collect the fees to which they are entitled with no significant ongoing financial obligation other than the ordinary operating expenses. Master LP distributes its income to limited partners on an annual basis and does not retain permanent investment assets.

FINANCIAL INSTRUMENTS

Master LP's financial instruments consist of cash, distribution fees and interest receivable, accounts payable and accrued liabilities, and distributions payable.

CASH DISTRIBUTION AND TAXABLE INCOME

Master LP has adopted an annual distribution policy as a result of the adverse tax consequences which would have arisen for at least a significant majority of the limited partners who participated in the merger if distributions were made more frequently than annually. Master LP may reconsider the distribution frequency if changes in tax laws have the effect of eliminating such adverse tax consequences.

Master LP itself is not directly subject to income tax. Instead, Master LP's income or loss for tax purposes is calculated and flowed through to limited partners.

Cash distributions for 2010 were \$0.15 per limited partnership unit and \$0.20 per limited partnership unit in 2009. In January 2011, Master LP paid cash distributions to limited partners of record on December 31, 2010. Cash distributions per limited partnership unit for the three most recent years are shown on page 9.

Taxable income for 2010 was \$0.15 per limited partnership unit and \$0.20 per limited partnership unit in 2009.

SIGNIFICANT ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates. A summary of significant accounting policies is presented in note 2 to the financial statements.

RELATED PARTY TRANSACTIONS

AGF Partners No. Five Limited is the general partner and is responsible for the management of Master LP on a day-to-day basis. In consideration for its services, the general partner is entitled to 0.01% of the net distributable income of Master LP and will be reimbursed by Master LP for expenses incurred on behalf of Master LP. It also receives an administration fee as consideration for its management of the business and affairs of Master LP and has engaged AGF Management Limited ("AGF"), its parent company, to assist it in carrying out its management obligations to Master LP. These services are in the normal course of operations and are recorded at the amount of consideration agreed to by the parties. Administration fees for the year ended December 31, 2010 amounted to \$99,887 as compared to \$110,986 a year ago.

OUTLOOK AND RISKS

Conversion to International Financial Reporting Standards in Fiscal 2011

The CICA Accounting Standards Board requires all Canadian publicly accountable enterprises to adopt International Financial Reporting Standards (IFRS) for years beginning on or after January 1, 2011. Master LP will adopt IFRS for the fiscal year 2011 starting January 1, 2011. The fiscal 2011 Financial Statement will include comparative 2010 financial results under IFRS.

We do not expect that the transition to IFRS will have a significant impact on the financial statement of Master LP.

Risk Factors and Risk Management

Master LP's only source of future revenue is distribution fees since all the redemption fee schedules for the Distributed Securities expired at the end of 2004. Distribution fees are expected to continue to decline in the future as the level of Distributed Securities declines and Master LP distribution fee period expires. Distribution fees are impacted by the following risks:

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks which are interest rate risk, currency risk, and other price risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Master LP is not exposed to significant interest rate risk.

The distribution fees earned by the Master LP were deposited with the bank and this cash balance is exposed to interest rate risk due to interest rate volatility.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Master LP is not exposed to significant currency risk arising from its financial instruments.

Other Price Risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or currency risk. Master LP is not exposed to other price risk however, is indirectly exposed to market risk based on its revenue earned from the market value of Distributed Securities.

AGF Master Limited Partnership

Management's Discussion and Analysis of Financial Condition and Results of Operations

Redemption Rate Risk

Each Distributed Security is subject to potential cash redemptions of redeemable units. The units of Distributed Security are issued and redeemed on demand at the option of the mutual fund investor at the then current Net Asset Value per unit of the Distributed Securities. The amount of distribution fees to be earned by Master LP will decrease as redemptions of Distributed Securities continue.

The annual rate of redemptions increased from the past year. Based on the combination of the age of the Fund Units and the expiration of the redemption fee schedules, we do not expect the rate of redemptions to increase significantly in the future.

Liquidity Risk

Liquidity risk is defined as the risk that Master LP may not be able to settle or meet its obligation on time. Master LP manages its liquidity risk through maintaining sufficient cash deposits to pay its annual cash distributions through prompt collection of its earned distribution fees. Distributions payable are due within one month.

Credit Risk

Credit risk is the potential of financial loss arising from the failure of a borrower or counterparty to honour its financial or contractual obligations to the Master LP. The Master LP's over-all credit risk strategy and credit risk policy are developed, managed and controlled by the general partner in accordance with the Master LP's partnership agreement. The over-all risk strategy and credit risk policy are further refined through the use of policies, processes and internal controls in order to ensure that business activities are within the standards of risk tolerance levels. As at December 31, 2010, the financial assets of \$1.7 million, consisting of cash of \$1.6 million and distribution fees and interest receivable of \$0.1 million were exposed to credit risk up to the maximum of their respective carrying value.

PARTNERS' EQUITY

As at December 31, 2010, Master LP has total issued and outstanding units of 8,568,159. The units of Master LP may be transferred by a limited partner or his agent duly authorized in writing to any person in accordance with the provisions of the Master LP's partnership agreement. The units also qualify for investments by registered tax plans such as RSPs and RIFs. Limited partners are entitled to cash distributions when declared. The annual cash distribution is calculated based on the Master LP's net income for the year.

CORPORATE GOVERNANCE

Master LP's business operations are managed by the general partner, AGF Partners No. Five Limited, which is a wholly-owned subsidiary of AGF. The general partner carries out its duties and obligations pursuant to the terms of Master LP's partnership agreement. Master LP's principal source of revenue is the distribution fees in respect of the AGF mutual funds managed by AGF Investments Inc. which comprise the Distributed Securities.

Master LP is responsible for the existence of appropriate information systems, procedures and controls to ensure that information used internally and disclosed externally is complete and reliable. The Board of Directors of the general partner has been charged with the oversight role to ensure the integrity and fair presentation of the reported information. Given the nature of the business, the general partner has determined that the corporate governance guidelines set out by the Exchange are not pertinent to Master LP's operations.

Independent Auditor's Report

**To the Partners of
AGF Master Limited Partnership**

We have audited the accompanying financial statements of AGF Master Limited Partnership, which comprise the balance sheets as at December 31, 2010 and 2009 and the statements of operations and deficit and cash flow for the years then ended, and the related notes including a summary of significant accounting policies

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian generally accepted accounting principles and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of AGF Master Limited Partnership as at December 31, 2010 and 2009 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

AGF Master Limited Partnership

Notes to Financial Statements

For the years ended December 31, 2010 and 2009

1. Formation of the Partnership

AGF Master Limited Partnership ("Master LP") was formed on January 23, 1998 through the merger (the "Initial Merger") of the following AGF and 20/20 limited partnerships (collectively, the "Initial Merging Partnerships"):

AGF Limited Partnership 1992 ("AGF LP 1992")
AGF Limited Partnership 1993 ("AGF LP 1993")
AGF Limited Partnership 1994 ("AGF LP 1994")
AGF Limited Partnership 1995 ("AGF LP 1995")
AGF Limited Partnership No. Three ("AGF LP No. 3")
AGF Limited Partnership No. Eight ("AGF LP No. 8")
20/20 Group 1989 Limited Partnership ("20/20 1989 LP")
20/20 Group 1991 Limited Partnership ("20/20 1991 LP")
The Sunset America Fund Limited Partnership ("Sunset America")

In addition, limited partners of the Initial Merging Partnerships approved subsequent mergers of Master LP with AGF Limited Partnership 1996 ("AGF LP 1996") and AGF Limited Partnership 1997 ("AGF LP 1997") on the same terms and conditions as the Initial Merger. The mergers of Master LP with AGF LP 1996 (the "LP 96 Merger") and AGF LP 1997 (the "LP 97 Merger") were completed on January 22, 1999 and January 21, 2000, respectively.

The Initial Merging Partnerships, AGF LP 1996 and AGF LP 1997 are collectively referred to as the "Merging Partnerships" in these financial statements.

2. Significant Accounting Changes

Financial Instruments Hierarchy

During 2009, CICA "Handbook Section 3862, Financial Instruments – Disclosures" was amended to include enhanced disclosures about inputs to fair value measurement, including their classification within a hierarchy that prioritizes the inputs to fair value measurement. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are:

Level 1	Unadjusted quoted prices in active markets for identical assets or liabilities;
Level 2	Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
Level 3	Inputs that are not based on observable market data.

If different levels of inputs are used to measure a financial instrument's fair value, the classification within the hierarchy is based on the lowest level input that is significant to the fair value measurement.

The amendment only impacted the disclosures in the financial statements.

Master LP's cash is classified as a level 1 financial instrument within the above hierarchy.

AGF Master Limited Partnership

Notes to Financial Statements

3. Significant Accounting Policies

The financial statements of Master LP are prepared in accordance with Canadian generally accepted accounting principles. The significant accounting policies are as follows:

Financial Instruments

In accordance with Section 3855, financial assets and financial liabilities are initially recognized at fair value. Measurement in subsequent periods is dependent upon the classification of each instrument. The standard requires that all financial assets be classified as either available for sale (AFS), held for trading (HFT), held to maturity (HTM) or loans and receivables. Financial liabilities are classified as trading or other.

The company does not have any AFS assets.

Issue and Merger Expenses

Expenses related to the initial offerings of the Merging Partnerships and expenses resulting from the mergers have been recorded as a reduction of partners' equity.

Use of Estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Risk Management

Master LP's financial instruments consist of cash, distribution fees and interest receivable, accounts payable and accrued liabilities, and distributions payable. In the normal course of business, Master LP manages risks that arise as a result of its use of financial instruments. These risks include market, redemption rate, liquidity and credit risk.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks which are interest rate risk, currency risk and other price risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Master LP is not exposed to significant interest rate risk.

The distribution fees earned by the Master LP were deposited with a bank and this cash balance is exposed to interest rate risk.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Master LP is not exposed to significant currency risk arising from its financial instruments.

Notes to Financial Statements

Other Price Risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or currency risk. Master LP is not exposed to other price risk however, is indirectly exposed to market risk based on its revenue earned from the market value of Distributed Securities.

Liquidity Risk

Liquidity risk is defined as the risk that Master LP may not be able to settle or meet its obligations on time. Master LP manages its liquidity risk through maintaining sufficient cash deposits to pay its annual cash distributions through prompt collection of its earned distribution fees. Distributions payable are due within one month.

Credit Risk

Credit risk is the potential of financial loss arising from the failure of a borrower or counterparty to honour its financial or contractual obligations to the Master LP. The Master LP's over-all credit risk strategy and credit risk policy are developed, managed and controlled by the General Partner. The over-all risk strategy and credit risk policy are further refined through the use of policies, processes and internal controls in order to ensure that business activities are within the standards of risk tolerance levels. As at December 31, 2010, the financial assets of \$1.7 million consisting of cash of \$1.6 million and distribution fees and interest receivable of \$0.1 million were exposed to credit risk up to the maximum of their respective carrying value.

4. Partnership Operations

The Merging Partnerships were formed for the purpose of arranging for the distribution of securities of certain mutual funds ("Distributed Securities"), which form part of the AGF Group of Funds, which were sold on a contingent deferred sales charge basis. The Merging Partnerships paid selling commissions to registered dealers ranging from 4% to 6% of the purchase price of such securities.

In return for their services, the Merging Partnerships received a monthly distribution fee calculated at annual rates ranging from 0.50% to 0.90% of the net asset value of the Distributed Securities which remain outstanding. Distributed Securities include the mutual fund shares or units on which the Merging Partnerships paid the selling commissions, shares or units issued on subsequent transfers (except for Sunset America) and reinvested distributions or dividends. In addition, the Merging Partnerships received any contingent deferred sales charges payable by an investor on the redemption of Distributed Securities.

Upon their mergers, each of the Merging Partnerships transferred its rights to distribution fees and deferred sales charges to Master LP. In accordance with the Limited Partnership Agreement as amended by a special resolution, Master LP will be dissolved no later than March 31, 2018.

5. Related Party Transactions

AGF Partners No. Five Limited is the general partner and is responsible for the management of Master LP on a day-to-day basis. In consideration for its services, the general partner is entitled to 0.01% of the net distributable income of Master LP and will be reimbursed by Master LP for expenses incurred on behalf of Master LP. It also receives an administration fee as consideration for its management of the business and affairs of Master LP and has engaged AGF Management Limited to assist it in carrying out its management obligations to Master LP. These services are in the normal course of operations and are recorded at the amount of consideration agreed to by the parties. Administration fees during the year 2010 amounted to \$99,887 (2009 - \$110,986).
