Management's Discussion and Analysis of Financial Condition and Results of Operations

For the three and six months ended June 30, 2006

Management's Discussion and Analysis ("MD&A") presents an analysis of the financial condition of Global Strategy Master LP ("Master LP") as at June 30, 2006 compared with December 31, 2005, and the results of operations for the three and six months ended June 30, 2006 compared with the corresponding periods of 2005. This discussion should be read in conjunction with our 2005 annual MD&A and 2005 annual audited financial statements and notes. The financial information presented herein has been prepared on the basis of Canadian generally accepted accounting principles ("GAAP"). Certain amounts or percentages are calculated using numbers rounded to the decimals that appear in this MD&A. All dollar amounts are in Canadian dollars.

There have been no material changes to the information discussed in the following sections of the 2005 annual MD&A: 'Significant Accounting Policies' and 'Corporate Governance'. Accordingly, readers should refer to our 2005 annual MD&A to gain an understanding of how these matters may impact the Master LP's operating results.

The MD&A includes forward-looking statements about Master LP. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", or negative versions thereof and similar expressions. The MD&A contains forward-looking statements that are based on current expectations and projections about future events and are inherently subject to, among other things, risks and uncertainties beyond Master LP's control. These risks and uncertainties include economic conditions, market fluctuations, interest rate and foreign exchange movements, political events, regulatory change and competitive developments. The reader is cautioned to consider these and other factors carefully and not place undue reliance on forward-looking statements. We are under no obligation (and expressly disclaim any such obligation) to update or alter the forward-looking statements whether as a result of new information, future events or otherwise. Actual results could differ materially from those contemplated by the forward-looking statements.

FORMATION AND BUSINESS OF GLOBAL STRATEGY MASTER LP

Master LP was formed in January 1999 when eight of the nine Global Strategy Limited Partnerships (the "Merging Partnerships") merged to form the Master LP. Global Strategy Partners LP IX ("LP IX") merged with Master LP on February 18, 2000 after it had fully deducted its sales commissions for tax purposes. Master LP consists of the aggregate assets of the Merging Partnerships and is carrying on with the business activities previously carried on by those partnerships.

The Merging Partnerships were formed to pay sales commissions to registered dealers who sold Global Strategy mutual funds on a back-end-load (redemption charge) basis. In return for paying sales commissions, the Merging Partnerships were entitled to ongoing distribution fee revenue on specific mutual funds units that remain outstanding and that were originally financed by that partnership ("Distributed Securities"). The Merging Partnerships were also entitled to redemption fees for up to six years, which provided some protection against a reduction in distribution fee revenue caused by early redemption of Distributed Securities. Upon merger, the Merging Partnerships transferred their rights to distribution fees and redemption fees to Master LP.

As at June 30, 2006, Master LP has total issued and outstanding units of 10,972,272. These units of Master LP are listed for trading on the Toronto Stock Exchange (the "Exchange") under the symbol LPV.UN. The units also qualify for investment by registered tax plans such as RSP and RIF.

REVENUE

Master LP's primary sources of revenue are distribution fees and redemption fees earned from the Distributed Securities to which it has distribution rights. The future stream of revenues is a function of the market value of these assets and the rate and timing of the redemptions of the underlying assets.

DISTRIBUTION FEES

Master LP receives from AGF Funds Inc. ("AGFFI"), a subsidiary of AGF Management Limited ("AGF"), a monthly distribution fee calculated as a percentage of the daily net asset value of the Distributed Securities which remain outstanding based on various distribution fee rates which are shown on page 4. Distribution fees are earned at various rates per annum. These distribution fee rates vary by partnership and can also vary over time, based on the composition of outstanding Distributed Securities of a partnership. In general, Distributed Securities that were sold for a higher sales commission carry a higher distribution fee rate than those that were sold for a lower sales commission. The weighted average annual distribution fee rate for the three and six months ended June 30, 2006 was 0.56% unchanged from the comparable periods in 2005.

Distribution fees amounted to \$0.5 million for the three months ended June 30, 2006, a decrease of 13.8% from the comparable period in 2005. During the six months ended June 30, 2006, distribution fees declined 15.2% to \$1.1 million from \$1.3 million in the same period last year. The decreases in distribution fees were primarily attributable to the lower net asset value of Distributed Securities for the three and six months ended June 30, 2006 as compared to the respective year-ago periods.

The following is a summary of the changes in Distributed Securities during the three and six months ended June 30, 2006 and 2005:

(in millions) (Unaudited)	Three months ended		Six months ended	
	2006	2005	2006	2005
Market value of Distributed Securities, beginning of period	\$ 400.3	\$ 458.2	\$ 402.5	\$ 502.1
Change in market value of Distributed Securities, including reinvested distributions	(11.8)	7.4	18.6	10.4
Redemption of Distributed Securities	(25.1)	(36.2)	(57.7)	(83.1)
Market value of Distributed Securities, end of period	\$ 363.4	\$ 429.4	\$ 363.4	\$ 429.4

The annualized redemption rate during the six months ended June 30, 2006 based on the market value of Distributed Securities at the beginning of the period was 28.7% compared to 33.1% in 2005. Redemptions accounted for \$57.7 million of the decline in the value of Distributed Securities during the six months ended June 30, 2006, offset by market appreciation and reinvested distributions totaling \$18.6 million.

DISTRIBUTED SECURITIES COMPOSITION

The composition of Distributed Securities as at June 30, 2006 and 2005 are shown in the following table. The relative weighting of each asset class will change over time, based on performance, redemptions, and unitholder switches between funds.

GENERAL AND ADMINISTRATION EXPENSES

General and administration expenses for the three months ended June 30, 2006 were \$100,108, a decrease of 6.5% from \$107,097 in 2005. During the six months ended June 30, 2006, general and administration expenses amounted to \$196,280, a decrease of 9.2% from \$216,192 in the same period in 2005. The decreases were primarily attributable to the decrease in administration fees.

FINANCIAL CONDITION AND LIQUIDITY

Total assets were \$563,992 as at June 30, 2006 as compared to \$530,311 as at December 31, 2005. Assets as at June 30, 2006 consisted of cash and term-deposit totaling \$399,564 and receivables of \$164,428. These assets were used primarily to finance the quarterly distributions payable to limited partners.

The Merging Partnerships were formed to finance selling commissions during a fixed period of time, after which the Merging Partnerships collect the fees to which they are entitled with no significant ongoing financial obligation other than ordinary operating expenses. Master LP distributes all its net income to limited partners on an annual or quarterly basis, depending on each partner's election. As a result, Master LP does not have long-term investment assets.

FINANCIAL INSTRUMENTS

Master LP's financial instruments consist of cash and term-deposit, distribution fees and interest receivable, accounts payable and accrued liabilities, and distributions payable. Unless otherwise noted, it is management's opinion that the Partnership is not exposed to significant interest, credit or currency risks arising from these financial instruments.

CASH DISTRIBUTIONS AND TAXABLE INCOME

Master LP itself is not directly subject to income tax. Instead, Master LP's income or loss for tax purposes is calculated and flowed through to limited partners. Limited partners who beneficially hold Master LP units on December 31 of any year are allocated income or loss for tax purposes based on the entire year's income or loss. This means that any limited partner who purchases units part way through the year and holds these units at year end is allocated taxable income or loss for the entire year, regardless of the cash distributions actually paid to them. In other words, taxable investors who purchase Master LP units that generate taxable income part way through the year and hold these units at year-end would have a tax liability based on the taxable income of the entire year and not just on the cash distributions they have received.

Cash distributions are paid either quarterly to limited partners of record on March 31, June 30, September 30 and December 31, or annually to limited partners of record at December 31 who have elected to receive annual distributions.

Cash distributions for the three months ended June 30, 2006 were \$0.04 per limited partnership unit and \$0.05 per limited partnership unit for the same period in 2005. Cash distributions for the six months ended June 30, 2006 amounted to \$0.08 per limited partnership unit and \$0.10 per limited partnership unit for the same period in 2005. Cash distributions were paid on July 31, 2006 to limited partners of record on June 30, 2006 who did not elect to receive distributions on an annual basis. Cash distributions per limited partnership unit for the eight most recent quarters are shown on page 6.

Estimated taxable income for the three months ended June 30, 2006 was \$0.04 per limited partnership unit as compared to \$0.05 per limited partnership unit in the comparable period in 2005. For the six months ended June 30, 2006, estimated taxable income was \$0.08 per limited partnership unit as compared to \$0.10 per limited partnership in the comparable period in 2005. Taxable income is allocated on an annual basis to limited partners of record on December 31 of a fiscal year.
