REASONS TO INVEST IN THIS FUND

- This global bond fund provides a higher level of interest income (relative to more traditional fixed-income strategies) and capital appreciation potential through a diversified portfolio of debt securities from issuers around the world.

INVESTMENT PROCESS

- The Fund's top-down fundamental approach determines the Fund's category allocation and is combined with a bottom-up approach to corporate bond selection using proprietary corporate credit research.

The information contained in this fund profile is designed to provide you with general information related to investment alternatives and strategies and is not intended to be comprehensive investment advice applicable to the circumstances of the individual. We strongly recommend you to consult with a financial advisor prior to making any investment decisions. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in share and/or unit value and reinvestment of all dividends and/or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed; their values change frequently and past performance may not be repeated. The payment of distributions should not be confused with a fund's performance, rate of return or yield. If distributions paid by the fund are greater than the performance of the fund, your original investment will shrink. Distributions paid as a result of capital gains realized by a fund, and income and dividends earned by a fund, are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base falls below zero, you will have to pay capital gains tax on the amount below zero.

In order to invest in and maintain participation in the AGF Gold Label program (Series Q and/or W), a minimum of \$100,000 in Series Q and/or W per fund (in each account) or \$250,000 in household assets in Series Q and/or W is required. Management fees (for Series Q and W) as well as service fees (for Series Q only) within the AGF Gold Label program will be taken out directly from client accounts. For AGF Gold Label clients, AGF pays the operating expenses, custody and other administration-related costs (except brokerage commissions, counterparty fees, IRC fees or other extraordinary items). Tier level discounts apply only to the dollar amount(s) grouped in each particular tier.
