³Cash is not included.

Note: numbers may not add up to 100% because of rounding.

REASONS TO INVEST IN THIS FUND

- The Fund seeks long-term capital appreciation by investing primarily in equity securities of issuers in Europe, Australasia and the Far East.

INVESTMENT PROCESS

- The Fund utilizes Highstreet's proprietary quantitative analysis, combined with substantial qualitative and technical analysis, to identify reasonably priced securities with appealing growth characteristics to hold over the mid to long term.

What are you doing after work?

HIGHSTREET ASSET MANAGEMENT INC.

Founded in 1998 and based in London, Ontario, Highstreet Asset Management Inc. is a wholly owned subsidiary of AGF Management Limited. Highstreet provides discretionary money management services to high-net-worth investors, individual investors and their families, foundations, pension plans, and institutional investors. At Highstreet's foundation lies empirically based research and the combination of quantitative and fundamental investing. The investment process incorporates ongoing monitoring and risk management through Highstreet's proprietary risk system.

ROBERT YAN, PH.D., CFA

Portfolio Manager

- Responsible for the portfolio management of Highstreet's non-Canadian equity portfolios
- Instrumental in the development, enhancement and day-to-day management of Highstreet's quantitative portfolio strategies

GRANT WANG, M.A. (ECON.), PH.D., CFA

Senior Vice President, Head of Research and Co-Chief Investment Officer

- Has 14 years of experience developing predictive statistical models

The information contained in this fund profile is designed to provide you with general information related to investment alternatives and strategies and is not intended to be comprehensive investment advice applicable to the circumstances of the individual. We strongly recommend you to consult with a financial advisor prior to making any investment decisions. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in share and/or unit value and reinvestment of all dividends and/or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed; their values change frequently and past performance may not be repeated. The payment of distributions should not be confused with a fund's performance, rate of return or yield. If distributions paid by the fund are greater than the performance of the fund, your original investment will shrink. Distributions paid as a result of capital gains realized by a fund, and income and dividends earned by a fund, are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base falls below zero, you will have to pay capital gains tax on the amount below zero.
