Quarterly MF¹

Please refer to AGF.com for distribution information.

¹MER as of September 30, 2016.

¹The distribution is not guaranteed, may be adjusted from time to time at the discretion of the fund manager and may vary from payment to payment. Amount shown, if any, is the most recent distribution amount.

²Cash is not included.

Note: numbers may not add up to 100% because of rounding.

On August 7, 2007, the Fund changed its investment objective to permit greater foreign-property investments.

REASONS TO INVEST IN THIS FUND

- The Fund invests in companies that provide potential solutions for the sustainability issues facing the world. Using a disciplined thematic investment framework, the Fund does not invest in certain sectors including fossil fuel producers.

INVESTMENT PROCESS

- The Fund focuses on four major themes: energy and power technologies, water/waste water solutions, waste management and pollution control and environmental health and safety, while also performing thorough due diligence on company fundamentals.

What are you doing after work?

The information contained in this fund profile is designed to provide you with general information related to investment alternatives and strategies and is not intended to be comprehensive investment advice applicable to the circumstances of the individual. We strongly recommend you to consult with a financial advisor prior to making any investment decisions. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in share and/or unit value and reinvestment of all dividends and/or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed; their values change frequently and past performance may not be repeated. The payment of distributions should not be confused with a fund's performance, rate of return or yield. If distributions paid by the fund are greater than the performance of the fund, your original investment will shrink. Distributions paid as a result of capital gains realized by a fund, and income and dividends earned by a fund, are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base falls below zero, you will have to pay capital gains tax on the amount below zero.
