*Cash is not included.
Note: numbers may not add up to 100%
because of rounding.

INVESTMENT OBJECTIVE

- The Fund seeks a balance of growth and a high level of income by investing primarily in money market instruments, high-quality Canadian, provincial or corporate bonds, convertibles, income trusts, mortgage securities, as well as dividend paying common and preferred shares.

INVESTMENT PROCESS

- The equity portion is invested in companies with strong balance sheets and are paying out a significant portion of their earnings through dividends. The fixed-income portion is managed using top-down fundamental analysis to anticipate changes in interest rates and currencies.

THE PORTFOLIO MANAGEMENT TEAM

The equity portion is managed using fundamental analysis. The fixed-income portion is managed using an approach that derives value from four key factors – country allocation, currency, the yield curve and creditworthiness.

PETER FROST, MBA, CFA

Senior Vice-President and Portfolio Manager

- Draws on his decade-long experience of managing balanced and income mandates for institutional investors
- Industry experience since 1992

All information is in Canadian dollars. The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, optional charges or income taxes payable by any securityholder that would have reduced returns. Management fees, commissions, including trailing commissions, and expenses may all be associated with pooled fund investments. Please read the offering memorandum before investing in Pooled Funds. Pooled fund investments are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer.

Past performance is not necessarily a guide to future performance. Their unit values change frequently and past performance may not be repeated. The payment of distributions is not guaranteed and may fluctuate. The value of investments and income from them can fall and rise. Investments denominated in foreign currencies are subject to fluctuations in exchange rates, which may have an adverse affect on the value of the investments, sale proceeds and on income.

The AGF Pooled Funds are prospectus-exempt products, and are being offered on a private placement basis. Units are being offered on a continuous basis in accordance with applicable securities legislation to investors who meet the definition of “accredited investor” under the legislation (individual accredited investors are required by AGF to invest a minimum of \$25,000 per fund, and institutional accredited investors are required to invest a minimum of \$1,000,000 per fund). Units of the Fund can be purchased through applicable dealers, and are offered to investors resident in the provinces or territories of Canada pursuant to exemptions set forth under NI 45-106 from the prospectus requirements (and, if and where applicable, from the dealer registration requirements) contained in the applicable securities legislation.
