

AGF Global Sustainable Growth Equity Fund*

AGF SUSTAINABLE

Investing in sustainable, high-growth thematic opportunities.

Why This Fund

1 | Seek Returns and Make an Impact

With a focus on companies that offer solutions to global sustainability issues, the strategy can help investors participate in and profit from the transition to a sustainable economy.

2 | A True Portfolio Diversifier

The strategy's thematic approach results in a portfolio which typically differs from Canadian and global equity indexes in terms of both sector and country allocations.

3 | The Original

The Fund was one of the first sustainable investing funds – in the world – and the first in Canada to report its carbon footprint[†].

FOR ADVISOR USE WITH INVESTORS

The Portfolio is 31% Less Carbon Intensive than the Benchmark on a Carbon to Revenue Basis.

AGF Global Sustainable Growth Equity Fund

A US\$1M investment in the Fund results in the equivalent to:

High-growth Opportunities

Four broad themes that we believe are well positioned to benefit from the transition to a more sustainable economy.

Energy Transition	Circular Economy & Pollution Abatement	Water Services & Climate Adaptation	Food & Health
<ul style="list-style-type: none"> • EV & Autonomous Transport • Green Buildings • Hydrogen • Industrial Automation • Renewable Energy Production • Smart Cities 	<ul style="list-style-type: none"> • Emissions Control • Recycling • Sustainable Packaging 	<ul style="list-style-type: none"> • Flood & Drought Mitigation • Water Treatment • Water Infrastructure 	<ul style="list-style-type: none"> • Diagnostic & Testing • Healthy Living • Safety & Injury Prevention • Sustainable Food

Source: AGF Investments Inc. and S&P Trucost Limited, as of March 31, 2022. Trucost is an external data service provider that AGF Investments Inc. enlists to measure the carbon intensity and environmental footprint of the portfolio and the benchmark. None of the Trucost information is intended to constitute or be construed as investment advice nor considered as recommendations to make (or refrain from making) any kind of investment decision and may not be relied on as such. Any historical data and analysis referenced herein should not be taken as an indication or guarantee of future performance analysis, forecast or prediction.

Assumptions: Source: Environmental Protection Agency, last updated in March 2022 (latest report available). Trucost, as of March 31, 2022. The impact on the environment is compared using the Tonnes of Carbon Dioxide Equivalent (tCO₂-e) measurement. As of March 31, 2022, the Fund had a tCO₂-e per million revenue of USD of 158.85 as compared to the MSCI World Index which was 230.60. According to the U.S. Environmental Protection Agency (EPA) 2022 data, 1 passenger vehicle emits 4.64 tCO₂-e per year, 1 acre of forest sequesters 0.84 tCO₂ per year, 1 metric tonne of coal burnt emits 1.99 tCO₂ per year, and 1 barrel of oil consumed emits 0.43 tCO₂ per year. A \$1 million investment in the Fund would have resulted in a 33.95 tCO₂-e lower carbon footprint than an investment of US\$1 million in the MSCI World Index (Source: Trucost).

On April 2, 2012, the Fund's benchmark changed from the S&P/TSX Composite Index to the FTSE Environmental Technology 50 Index. Then on March 1, 2014, the benchmark changed to the MSCI World Net Index. In both cases, the benchmark changes were applied from that date forward.
