

AGFiQ U.S. Sector Class

Risk-controlled exposure to the largest economy in the world.

Why this Fund

1 | Sector Exposure

The Fund's ability to over and underweight sectors helps managers meet market challenges and take advantage of opportunities.

2 | Risk Management

In times of extreme market conditions the Fund can efficiently slide asset allocation between equity and cash providing a greater opportunity for protection when markets decline while maintaining a level of participation when markets appreciate.

3 | Managing Currency

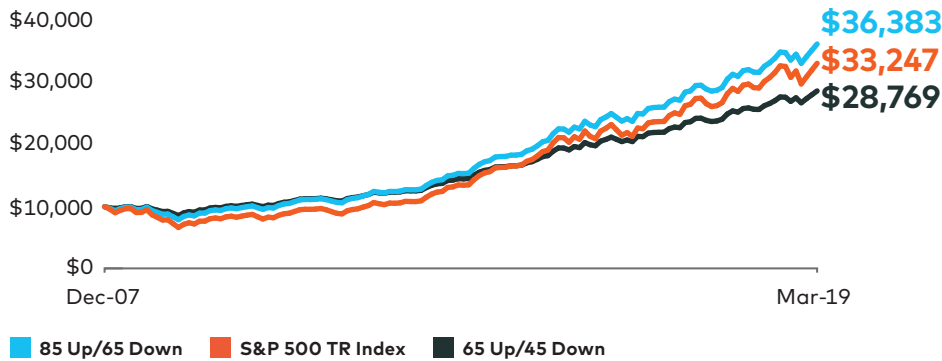

The Fund takes a strategic approach to currency management aiming to add return when the situation warrants while controlling overall currency risk in the portfolio.

FOR ADVISOR USE WITH INVESTORS

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

The All World Tax Advantage Group is a mutual fund corporation that currently offers approximately 20 different classes of securities. In addition to fund diversification by investment style, geography and market capitalization, a key benefit of investing in any of the classes within the group is the possibility of sharing incurred expenses (and losses) of the combined structure potentially offsetting income earnings to minimize chance of a dividend declaration.
