

**Annual Management Report of Fund Performance**

# **AGF Elements Global Portfolio Class**

September 30, 2024

## Management Discussion of Fund Performance

This management discussion of fund performance represents the portfolio management team's view of the significant factors and developments affecting the portfolio's performance and outlook.

### Investment Objective and Strategies

As described in the Simplified Prospectus, the investment objective of AGF Elements Global Portfolio Class (the "Portfolio") is to provide superior long-term returns by investing primarily in equity mutual funds from around the globe. To achieve this objective, AGF Investments Inc. ("AGFI"), as portfolio manager, generally allocates the Portfolio's assets among underlying mutual funds (the "Underlying Funds") and exchange traded funds ("ETFs"), which are primarily managed by AGFI or an AGFI affiliate. AGFI has set, and reviews quarterly, target dynamic allocations between equity funds for the Portfolio, consistent with the Portfolio's investment objective. During periods of market downturn, a significant portion of the Portfolio's assets may be held in cash, money market securities or money market funds.

### Risk

The risks of investing in the Portfolio remain as disclosed in the current prospectus. Any changes to the Portfolio over the period have not affected the overall level of risk of the Portfolio.

The Portfolio continues to be suitable for investors investing for the medium to long-term, seeking a globally diversified mix of equity funds in a single portfolio and who have low to medium tolerance for risk. The suitability of the Portfolio has not changed from what has been disclosed in the prospectus.

### Results of Operations

For the year ended September 30, 2024, the Mutual Fund Shares of the Portfolio returned 26.1% (net of expenses) while the MSCI All Country World Index and the S&P/TSX Composite Index ("S&P/TSX Index") returned 31.8% and 26.7%, respectively. The performance of the other series of the Portfolio is substantially similar to that of the Mutual Fund Shares, save for differences in expense structure. Refer to "Past Performance" section for performance information of such series.

The Portfolio holds Series I or Series S Units of the Underlying Funds. The discussion below references performance figures for Mutual Fund Units or Series S Units of the Underlying Funds. The performance of Series I Units is substantially similar to that of Mutual Fund Units, save for differences in expense structure. The Underlying Funds may be subject to

valuation adjustments as outlined in the Underlying Funds' valuation policies as they relate to non-North American equities held by the Underlying Funds. A fair value adjustment can either positively or negatively impact the Underlying Funds' rate of return.

The Portfolio is constructed based on an asset allocation framework that allocates to a diverse array of mutual funds and ETFs representing distinct global asset class opportunities, each with unique risk and return expectations.

The Portfolio under-performed the MSCI All Country World Index due to both allocation and selection decisions. From an allocation perspective, global equities out-performed most other asset classes. As a result, allocations to emerging markets, European equities and alternatives detracted, while allocations to U.S. equities contributed to relative returns. The Portfolio's selection within global and emerging markets equities also detracted from results, though partially offset by selection within U.S. equities which contributed to relative performance. From a holdings perspective, AGF US Market Neutral Anti-Beta CAD-Hedged ETF, AGF Global Sustainable Growth Equity Fund, AGF Emerging Markets Fund and AGF Global Real Assets Fund detracted the most from the Portfolio's relative performance. On the other hand, AGF American Growth Fund contributed the most to relative performance.

The Portfolio under-performed the S&P/TSX Index due to selection decisions. Selection within global sustainable and emerging markets equities and alternatives detracted the most from results. However, allocations to U.S. and global equities contributed to relative returns.

During the reporting period, apart from investing in Underlying Funds and ETFs that are managed by AGFI or its affiliates, the Portfolio also invested in ETFs that are not managed by AGFI ("external investments"). The Portfolio held approximately 86.0% of its holdings in foreign equity funds, 10.0% in external investments, 2.0% in a Canadian equity fund and 2.0% in cash and cash equivalents as at September 30, 2024. During the reporting period, the Portfolio's exposure to the various asset types remained fairly consistent. Within global equity, exposure to AGF Emerging Markets Fund and AGF Global Equity Fund increased, while exposure to AGF Global Dividend Fund and AGF Systematic Emerging Markets Equity ETF was eliminated.

The Portfolio entered into foreign exchange forward contracts during the period under review. As of September 30, 2024, the Portfolio was long Canadian dollar and short U.S. dollar in order to hedge its indirect currency exposure via the Underlying Funds and ETFs.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1 800 268-8583, by writing to us at AGF Investments Inc., CIBC SQUARE, Tower One, 81 Bay Street, Suite 4000, Toronto, Ontario, Canada M5J 0G1 attention: Client Services, or by visiting our website at [www.agf.com](http://www.agf.com) or SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

# AGF Elements Global Portfolio Class

## (CLASS OF AGF ALL WORLD TAX ADVANTAGE GROUP LIMITED)

SEPTEMBER 30, 2024

The Portfolio had net redemptions of approximately \$3 million for the current period, as compared to net subscriptions of approximately \$2 million in the prior period. The portfolio manager does not believe that redemption/subscription activity had a meaningful impact on the Portfolio's performance or the ability to implement its investment strategy.

All series of the Portfolio are closed to new investors as of July 5, 2023. The Portfolio remains available to existing investors, including those with systematic investment plans.

Total expenses before commissions and other portfolio transaction costs vary period over period mainly as a result of changes in average Net Asset Values (see Explanatory Note (1) a)) and investor activity, such as number of investor accounts and transactions. Expenses have increased as compared to the previous period due mainly to an increase in average Net Asset Values. On the contrary, the decrease in interest expense was due to a one-time tax instalment interest paid in the previous period. The increase in registration fees and decrease in independent review committee fees were due to variances between the accrued amounts versus the actual expenses incurred in the previous period. All other expenses remained fairly consistent throughout the periods.

### Recent Developments

AGFI, as portfolio manager, monitors and reviews the Portfolio and the strategic asset allocation on a quarterly basis. Rebalancing of the allocation of funds within the Portfolio occurs quarterly, or as deemed appropriate.

Global equities performed well during the reporting period driven by a resilient U.S. economy. Investors continued to be focused on economic conditions and their ramifications on monetary policy. Higher for longer expectations gradually became consensus through the period, as resilient economic growth and slow progress on inflation kept yields elevated.

Global markets felt some relief during the latter half of the reporting period as central banks in the developed world took a more accommodative stance to their monetary policy. The European Central Bank and the Bank of Canada initiated rate cuts midway through 2024 as inflationary pressures on their respective economies began to ease. Meanwhile, the Bank of Japan tightened its key policy rate at the end of July 2024, which resulted in a resurgent Japanese Yen unwinding global carry trades. Over the reporting period, the conflict in the Middle East continued to be a source of major concern, adding to the existing market volatility, especially impacting the energy sector. While the U.S. equity market continued to perform strongly following the rate cut, softer inflation and labour market data spurred a sector rotation into cyclical and small-capitalization stocks, which are more sensitive to interest rates.

The U.S. economy continued to expand quarter-on-quarter over the reporting period. However, the pace of growth began to decelerate during the last calendar quarter of 2023 and this continued into 2024. Furthermore, the annual inflation rate declined through the latter half of the reporting

period, after peaking at 3.5% in March 2024. Supported by decelerating inflation figures and softer labour market data, the U.S. Federal Reserve (the "Fed") cut interest rates by 0.5% in September 2024, putting an end to a 23-year high and bringing rates to a target range of 4.75%-5.00%. This move marked the first cut by the Fed since the start of the COVID-19 pandemic in March 2020.

The portfolio manager believes the bull market remains intact, given the ongoing resilience of the U.S. economy. The economy has been underpinned by a labour market that has been resilient, although there have been some signs of recent softening. While economic growth is slowing from the lofty levels of the second half of 2023, the portfolio manager believes that it will remain positive and supportive for equity markets.

With the equity market, the portfolio manager remains constructive and believes equities are benefitting from strong earnings growth, which ultimately has been the most correlated factor with the markets. Moreover, it is the portfolio manager's belief that some of the substantial cash balances accumulated on the sidelines in 2022 and 2023 will eventually find its way back into equities, as the Fed continues on the path to reducing rates. The portfolio manager believes that rate cuts will favour certain sectors in the market and drive market leadership in the foreseeable future. These events underscore the importance of maintaining objectivity throughout the changing macroeconomic environment and recognizing that they can drive leadership over the shorter term.

Overall, the portfolio manager is encouraged with the continued resilient economy and the promising secular innovative trends which include generative artificial intelligence, health and wellness, and reshoring. The portfolio manager believes equities are positioned well for the balance of the calendar year, though some volatility may be expected along the way, particularly given that 2024 is an election year and sees any inevitable corrections as buying opportunities.

### Related Party Transactions

AGFI is the manager ("Manager") of the Portfolio. Pursuant to the management agreement between the Portfolio and AGFI, AGFI is responsible for the day-to-day business of the Portfolio. AGFI also acts as the investment (portfolio) manager of the Portfolio, providing analysis and making decisions as to which Underlying Funds and ETFs the Portfolio invests in and the target weighting of the Portfolio's assets. Under the management agreement, the Portfolio (except for Series O, Series Q and Series W Shares, if applicable) pays management fees calculated based on the Net Asset Value of the respective series of the Portfolio. Management fees of approximately \$288,000 were incurred by the Portfolio during the period ended September 30, 2024.

Certain operating expenses relating to registrar and transfer agency services are paid directly by AGFI and in exchange, a fixed rate administration fee is payable by the Mutual Fund Series, Series F, Series FV, Series T and Series V Shares, as applicable, of the Portfolio. The administration fee is

# AGF Elements Global Portfolio Class

## (CLASS OF AGF ALL WORLD TAX ADVANTAGE GROUP LIMITED)

SEPTEMBER 30, 2024

calculated based on the Net Asset Value of the respective series of the Portfolio at a fixed annual rate, as disclosed in the current prospectus. Administration fees of approximately \$9,000 were incurred by the Portfolio during the period ended September 30, 2024.

AGFI is an indirect wholly-owned subsidiary of AGF Management Limited.

### Caution Regarding Forward-looking Statements

This report may contain forward-looking statements about the Portfolio, including its strategy, expected performance and condition. Forward looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Portfolio action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Portfolio and economic factors.

The forward-looking statements are by their nature based on numerous assumptions, which include, amongst other things, that (i) the Portfolio can attract and maintain investors and has sufficient capital under management to effect its investment strategies, (ii) the investment strategies will produce the results intended by the portfolio manager, and (iii) the markets will react and perform in a manner consistent with the investment strategies. Although the forward-looking statements contained herein are based upon what the portfolio manager believes to be reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Portfolio. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, taxation, changes in government regulations, unexpected judicial or regulatory proceedings, technological changes, cybersecurity, the possible effects of war or terrorist activities, outbreaks of disease or illness that affect local, national or international economies (such as COVID-19), natural disasters and disruptions to public infrastructure, such as transportation, communications, power or water supply or other catastrophic events.

It should be stressed that the above-mentioned list of factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Portfolio has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

### Explanatory Notes

(1) a) This information is derived from the Portfolio's audited annual financial statements. Under International Financial Reporting Standards ("IFRS"), investments that are traded in an active market are generally valued at closing price, which is determined to be within the bid-ask spread and most representative of fair value. As a result, there is no difference between the net assets per share presented in the financial statements ("Net Assets") and the net asset value per share calculated for fund pricing purposes ("Net Asset Value").

b) The following series of the Portfolio commenced operations on the following dates, which represents the date upon which securities of a series were first made available for purchase by investors.

Mutual Fund Shares	January 2009
Series F Shares	January 2009
Series Q Shares	April 2015
Series W Shares	April 2016

(2) Net Assets, dividends and distributions are based on the actual number of shares outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of shares outstanding over the financial period.

(3) Dividends and distributions were paid in cash/reinvested in additional shares of the Portfolio, or both.

(4) This is not a reconciliation of the beginning and ending Net Assets per share.

(5) The management expense ratio ("MER") of a particular series is calculated in accordance with National Instrument 81-106, based on all the expenses of the Portfolio (including

(1), (2), (3), (4), (5), (6), (7) and (8) see Explanatory Notes

# AGF Elements Global Portfolio Class

## (CLASS OF AGF ALL WORLD TAX ADVANTAGE GROUP LIMITED)

SEPTEMBER 30, 2024

Harmonized Sales Tax, Goods and Services Tax and interest, but excluding income tax, commissions and other portfolio transaction costs) and the Portfolio's proportionate share of the MER, if applicable, of the Underlying Funds and ETFs in which the Portfolio has invested, attributable to that series, expressed as an annualized percentage of average daily Net Asset Value of that series during the period. For new series launched during the period, the MER is annualized from the date of the first external purchase.

The Portfolio does not pay duplicate management and advisory fees, as applicable, on the portion of the assets that it invests in the Underlying Funds. Accordingly, AGFI will waive the management and advisory fees payable or paid by the Underlying Funds in order to avoid such duplication.

- (6) AGFI waived certain fees or absorbed certain expenses otherwise payable by the Portfolio. The amount of expenses waived or absorbed is determined annually on a series by series basis at the discretion of AGFI and AGFI can terminate the waiver or absorption at any time.
- (7) The trading expense ratio represents total commissions and other portfolio transaction costs, including the Portfolio's proportionate share of the commissions, if applicable, of the Underlying Funds and ETFs in which the Portfolio has invested, expressed as an annualized percentage of average daily Net Asset Value during the period.
- (8) The Portfolio's portfolio turnover rate ("PTR") indicates how actively the Portfolio's portfolio advisor manages its portfolio investments. A PTR of 100% is equivalent to the Portfolio buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's PTR in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

PTR is calculated based on the lesser of the cumulative cost of purchases or cumulative proceeds of sales divided by the average market value of the portfolio, excluding short-term investments.

## Management Fees

The Portfolio is managed by AGFI. As a result of providing investment and management services, AGFI receives a monthly management fee, based on the Net Asset Value of the respective series, calculated daily and payable monthly. Management fees in respect of Series O, Series Q and Series W Shares, if applicable, are arranged directly between the Manager and investors and are not expenses of the Portfolio. AGFI uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Portfolio's shares, investment advice, as well as for general administrative expenses such as overhead, salaries, rent, legal and accounting fees relating to AGFI's role as manager.

	As a percentage of management fees		
	Annual rates	Dealer compensation	General administration and investment advice
Mutual Fund Shares	2.10%	57.69%	42.31%
Series F Shares	0.90%	-	100.00%

## Past Performance\*

The performance information shown assumes that all distributions made by the Portfolio in the periods shown were reinvested in additional securities of the Portfolio. Note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Portfolio has performed in the past does not necessarily indicate how it will perform in the future.

It is AGFI's policy to report rates of return for series in existence greater than one year. The performance start date for each series represents the date of the first purchase of such series, excluding seed money.

All rates of return are calculated based on the Net Asset Value.

### Year-By-Year Returns

The following bar charts show the Portfolio's annual performance for each of the past 10 years to September 30, 2024 as applicable, and illustrate how the Portfolio's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period.

#### Mutual Fund Shares

#### Series F Shares

\* The indicated rates of return shown here are the historical annual compounded total returns including changes in security value and reinvestment of all distributions and do not take into account sales, redemption, distribution or other optional charges by any securityholder that would have reduced returns or performance. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

# AGF Elements Global Portfolio Class

## (CLASS OF AGF ALL WORLD TAX ADVANTAGE GROUP LIMITED)

SEPTEMBER 30, 2024

### Series Q Shares

Performance for 2015 represents returns for the period from May 14, 2015 to September 30, 2015.

### Series W Shares

Performance for 2017 represents returns for the period from December 13, 2016 to September 30, 2017.

### Annual Compound Returns

The following table compares the historical annual compound returns for each series with the indices, for each of the periods ended September 30, 2024.

Percentage Return:	1 Year	3 Years	5 Years	10 Years	Since Inception
Mutual Fund Shares	26.1	7.9	9.1	7.4	N/A
MSCI All Country World Index	31.8	11.0	13.2	12.0	N/A
S&P/TSX Composite Index	26.7	9.5	10.9	8.1	N/A
Series F Shares	27.8	9.3	10.6	8.7	N/A
MSCI All Country World Index	31.8	11.0	13.2	12.0	N/A
S&P/TSX Composite Index	26.7	9.5	10.9	8.1	N/A
Series Q Shares	29.6	10.8	12.1	N/A	9.8
MSCI All Country World Index	31.8	11.0	13.2	N/A	11.2
S&P/TSX Composite Index	26.7	9.5	10.9	N/A	8.4
Series W Shares	29.6	10.8	12.1	N/A	10.3
MSCI All Country World Index	31.8	11.0	13.2	N/A	12.2
S&P/TSX Composite Index	26.7	9.5	10.9	N/A	9.2

The MSCI All Country World Index is a free float-adjusted market capitalization-weighted index that is designed to measure the equity market performance of developed and emerging markets.

The S&P/TSX Composite Index is a capitalization-weighted index designed to measure market activity of stocks and trusts listed on the Toronto Stock Exchange.

For a discussion of the relative performance of the Portfolio as compared to the indices, see Results of Operations in the Management Discussion of Fund Performance.

<b>Total Net Asset Value (thousands of dollars)</b>	<b>\$ 20,752</b>

## Other Material Information

Effective October 1, 2024, the Manager will pay for all the operating expenses of the Portfolio (except for certain costs as disclosed in the current prospectus) in exchange for an annual fixed rate administration fee payable by the applicable series of the Portfolio, and in return, the administration fee relating to registrar and transfer agency services will be eliminated. The adoption of the fixed rate administration fee was approved by the securityholders of the Portfolio at the special securityholder meeting held on June 12, 2024.
