

Annual Management Report of Fund Performance

# AGF Income Focus Fund

September 30, 2018

## Management Discussion of Fund Performance

This management discussion of fund performance represents the portfolio management team's view of the significant factors and developments affecting the fund's performance and outlook.

### Investment Objective and Strategies

Pursuant to the Declaration of Trust, the investment objective of AGF Income Focus Fund (the "Fund") is to provide income by investing primarily in fixed income securities and dividend paying equity securities. AGF Investments Inc. ("AGFI"), as portfolio manager, allocates the Fund's assets among underlying funds managed by AGFI or an AGFI affiliate (the "Underlying Funds"). AGFI has set, and reviews quarterly, target dynamic allocations between bond, dividend and balanced funds for the Fund, consistent with the Fund's investment objective. The Fund may also invest directly in securities similar to those held by the Underlying Funds where the portfolio manager believes it would be beneficial to securityholders to do so. The Fund may invest in foreign securities, which will vary from time to time. In periods of unusual market conditions, a significant portion of the Fund's assets may be held in cash, money market securities or money market funds.

### Risk

The risks of investing in the Fund remain as disclosed in the current prospectus. The Fund continues to be suitable for income-oriented investors investing for the medium to long-term, seeking a managed portfolio of equity and fixed income securities in a single fund and who have low tolerance for risk.

### Results of Operations

For the year ended September 30, 2018, the Mutual Fund Units of the Fund returned 1.9% (net of expenses) while the FTSE TMX Canada Universe Bond Index ("FTSE TMX Universe Bond Index"), the S&P/TSX 60 Index and the Blended Benchmark returned 1.7%, 6.5% and 4.1%, respectively. The Blended Benchmark is composed of 50% FTSE TMX Universe Bond Index/25% FTSE TMX Canada High Yield Bond Index/25% S&P/TSX 60 Index. The performance of the other series of the Fund is substantially similar to that of the Mutual Fund Units, save for differences in expense structure. Refer to "Past Performance" section for performance information of such series.

The Fund holds Series I Units of the Underlying Funds.

The Fund out-performed the FTSE TMX Universe Bond Index due to the inclusion of equities in the Underlying Funds, which significantly out-performed fixed income during the reporting period.

Conversely, the Fund under-performed the S&P/TSX 60 Index due to the inclusion of fixed income securities, which under-performed equities over the reporting period. Higher yields brought on by continued central bank tightening pressured this asset class.

The Fund under-performed the Blended Benchmark due primarily to the allocation of fixed income securities in the Underlying Funds. In particular, AGF Fixed Income Plus Fund maintained a lower duration in anticipation of higher rates. Duration exposure is the sensitivity of the portfolio due to changes in interest rates. While this proved to be a prudent shift in the latter half of the reporting period, the portfolio's overweight to short-term bonds and underweight to long-term bonds detracted overall, as long-term bonds out-performed over the full period. The portfolio also further reduced its underweight exposure to provincial bonds in favour of corporate investment grade bonds. While corporate investment grade bonds generated positive returns, this category lagged provincial bonds. Partially offsetting this headwind was the portfolio's overweight to high yield bonds, as these securities out-performed within the asset class. In addition, the Fund's allocation to Canadian equity, as represented by AGFiQ Dividend Income Fund, also added value during the reporting period as a result of strong security selection within the portfolio.

At the end of the reporting period, the Fund held approximately 66.0% and 27.0% in fixed income and equities, respectively, via Underlying Funds' holdings. During the period under review, the Fund's holding in AGF Traditional Income Fund was eliminated, while its holdings in AGF Fixed Income Plus Fund and AGF High Yield Bond Fund were increased and a new holding in AGFiQ Dividend Income Fund was added.

Certain series of the Fund, as applicable, make monthly distributions at a rate determined by AGFI from time to time. If the aggregate amount of the monthly distributions made to a series in a year exceeds the portion of the net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The portfolio manager does not believe that the distributions made by the Fund had a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objectives.

The Fund had net redemptions of approximately \$3 million for the current period, as compared to net subscriptions of approximately \$0.4 million in the prior period. The portfolio manager does not believe that redemption/subscriber activity had a meaningful impact on the Fund's performance or the ability to implement its investment strategy.

Total expenses before foreign withholding taxes, commissions and other portfolio transaction costs vary period over period mainly as a result of changes in average

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1 800 268-8583, by writing to us at AGF Investments Inc., 55 Standish Court, Suite 1050, Mississauga, Ontario, Canada L5R 0G3 attention: Client Services, or by visiting our website at [www.agf.com](http://www.agf.com) or SEDAR at [www.sedar.com](http://www.sedar.com).

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Net Asset Values (see Explanatory Note (1) a)) and investor activity, such as number of investor accounts and transactions. Expenses have decreased as compared to the previous period due mainly to a decrease in average Net Asset Values. All other expenses remained fairly consistent throughout the periods.

## Recent Developments

The portfolio manager remains constructive towards global growth over the medium term, with periods of unsettled markets expected along the way. As such, the portfolio manager continues to favour equities over fixed income, relative to the Blended Benchmark, though heightened political uncertainty and the risk of additional tariffs warrant a defensive shift in positioning for the upcoming period. Within developed markets, the portfolio manager continues to view U.S. equities favourably as the effects of tax reform and global economic growth should support earnings. The backdrop for Canadian equities has improved upon trade resolution and sustained higher energy prices, yet remains out-of-favour due to government regulation and record-high household debt levels. The Fund maintains an underweight position in fixed income, a slight overweight to equities, relative to the Blended Benchmark, and a small allocation to cash in an effort to soften the impact of market volatility. Expectation for modestly higher yields as central banks continue to tighten policy has led to the underweight position in fixed income. Within rate sensitive bonds, the portfolio manager prefers government issued debt over corporate issues. Prospects for high yield bonds are less favourable as late-cycle effects begin to wear on credit quality and could lead to spread widening.

Effective October 1, 2018, certain operating expenses relating to registrar and transfer agency services are paid directly by AGFI and in exchange, a fixed rate administration fee was introduced for the Mutual Fund Series, Series D, Series F, Series I, Series J, Series T and Series V Units, as applicable, of the Fund. The administration fee was approved by the unitholders of the Fund on June 14, 2018. The administration fee for each applicable series is calculated daily and payable monthly, based on the average Net Asset Value of the respective series of the Fund at a fixed annual rate, as disclosed in the current prospectus. The Fund continues to pay for all other operating expenses.

## Related Party Transactions

AGFI is the manager ("Manager") and trustee of the Fund. Pursuant to the management agreement between the Fund and AGFI, AGFI is responsible for the day-to-day business of the Fund. AGFI also acts as the investment (portfolio) manager, managing the investment portfolio of the Fund. Under the management agreement, the Fund (except for Series I, Series O, Series Q and Series W Units, if applicable) pays management fees, calculated based on the Net Asset Value of the respective series of the Fund. Management fees of approximately \$626,000 were incurred by the Fund during the period ended September 30, 2018.

AGF CustomerFirst Inc. ("AGFC") provides transfer agency services to the Fund pursuant to a services agreement with AGFI. Unitholder servicing and administrative fees of approximately \$52,000 incurred by the Fund were paid to AGFC during the period ended September 30, 2018.

AGFI and AGFC are indirect wholly-owned subsidiaries of AGF Management Limited.

## Caution Regarding Forward-looking Statements

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

The forward-looking statements are by their nature based on numerous assumptions, which include, amongst other things, that (i) the Fund can attract and maintain investors and has sufficient capital under management to effect its investment strategies, (ii) the investment strategies will produce the results intended by the portfolio manager, and (iii) the markets will react and perform in a manner consistent with the investment strategies. Although the forward-looking statements contained herein are based upon what the portfolio manager believes to be reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

## Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five years as applicable. The Fund adopted International Financial Reporting Standards ("IFRS") on October 1, 2014. All per unit information presented for the period ended September 30, 2014, including opening net assets, reflects retrospective adjustments in accordance with IFRS. Previously, financial statements were prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP").

## Explanatory Notes

(1) a) This information is derived from the Fund's audited annual financial statements. Under IFRS, investments that are traded in an active market are generally valued at closing price, which is determined to be within the bid-ask spread and most representative of fair value. As a result, there is no difference between the net assets per unit presented in the financial statements ("Net Assets") and the net asset value per unit calculated for fund pricing purposes ("Net Asset Value").

Total Net Asset Value and number of units outstanding presented as at September 30, 2015 may have been adjusted to include certain transactions, if applicable, for the purpose of comparability with subsequent reporting periods. These adjustments have no effect on the Net Asset Value per unit.

b) The following series of the Fund commenced operations on the following dates, which represents the date upon which securities of a series were first made available for purchase by investors.

Mutual Fund Units	May 2012
Series F Units	May 2012
Series Q Units	April 2017
Series T Units	May 2012
Series V Units	May 2012

c) In April 2017, the Fund recommenced the offering of Series Q Units that are available to all investors. Series Q Units previously commenced offering in April 2015 and was closed due to full redemption by unitholders in May 2016. The financial data of Series Q Units includes the results of operations from date of recommencement.

- Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.
- Distributions were paid in cash/reinvested in additional units of the Fund, or both. The characterization of the distributions is based on management's estimate of the actual income for the year.
- This is not a reconciliation of the beginning and ending Net Assets per unit.
- The management expense ratio ("MER") of a particular series is calculated in accordance with National Instrument 81-106, based on all the expenses of the Fund (including Harmonized Sales Tax, Goods and Services Tax and interest, but excluding foreign withholding taxes, commissions and other portfolio transaction costs) allocated to that series, expressed as an annualized percentage of average daily Net Asset Value of that series during the period.

As a result of the Fund's investment in Underlying Funds, the MER is calculated based on the expenses of the Fund allocated to that series, including expenses indirectly incurred by the Fund attributable to its investment in the Underlying Funds, divided by the average daily Net Asset Value of that series of the Fund during the period.

The Fund does not pay duplicate management and advisory fees, as applicable, on the portion of the assets that it invests in the Underlying Funds. Accordingly, AGFI will waive the management and advisory fees payable or paid by the Underlying Funds in order to avoid such duplication.

- AGFI waived certain fees or absorbed certain expenses otherwise payable by the Fund. The amount of expenses waived or absorbed is determined annually on a series by series basis at the discretion of AGFI and AGFI can terminate the waiver or absorption at any time.
- The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average daily Net Asset Value during the period.

As a result of the Fund's investment in the Underlying Funds, the TER is calculated based on commissions and other portfolio transaction costs of the Fund, including such

(1), (2), (3), (4), (5), (6), (7) and (8) see Explanatory Notes

costs that are indirectly incurred by the Fund attributable to its investment in the Underlying Funds, divided by the average daily Net Asset Value of the Fund during the period.

- (8) The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio advisor manages its portfolio investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's PTR in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

PTR is calculated based on the lesser of the cumulative cost of purchases or cumulative proceeds of sales divided by the average market value of the portfolio, excluding short-term investments.

## Management Fees

The Fund is managed by AGFI. As a result of providing investment and management services, AGFI receives a monthly management fee, based on the Net Asset Value of the respective series, calculated daily and payable monthly. Management fees in respect of Series I, Series O, Series Q and Series W Units, if applicable, are arranged directly between the Manager and investors and are not expenses of the Fund. AGFI uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund's units, investment advice, as well as for general administrative expenses such as overhead, salaries, rent, legal and accounting fees relating to AGFI's role as manager.

	As a percentage of management fees		
	Annual rates	Dealer compensation	General administration and investment advice
Mutual Fund Units	1.65%	42.43%	57.57%
Series F Units	0.90%	-	100.00%
Series T Units	1.65%	27.61%	72.39%
Series V Units	1.65%	32.28%	67.72%

## Past Performance\*

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. Note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

It is AGFI's policy to report rates of return for series in existence greater than one year. The performance start date for each series represents the date of the first purchase of

such series, excluding seed money. Series Q Units recommenced operations in April 2017 with the first external purchase in June 2018.

All rates of return are calculated based on the Net Asset Value.

### Year-By-Year Returns

The following bar charts show the Fund's annual performance for each of the past 10 years to September 30, 2018 as applicable, and illustrate how the Fund's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period.

#### Mutual Fund Units

Performance for 2012 represents returns for the period from May 8, 2012 to September 30, 2012.

#### Series F Units

Performance for 2012 represents returns for the period from June 27, 2012 to September 30, 2012.

#### Series T Units

Performance for 2013 represents returns for the period from October 16, 2012 to September 30, 2013.

\* The indicated rates of return shown here are the historical annual compounded total returns including changes in security value and reinvestment of all distributions and do not take into account sales, redemption, distribution or other optional charges by any securityholder that would have reduced returns or performance. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

## Series V Units

Performance for 2012 represents returns for the period from July 27, 2012 to September 30, 2012.

## Annual Compound Returns

The following table compares the historical annual compound returns for each series with the indices, for each of the periods ended September 30, 2018.

Percentage Return:	Since				
	1 Year	3 Years	5 Years	10 Years	Inception
Mutual Fund Units	1.9	3.7	2.8	N/A	2.8
FTSE TMX Canada Universe Bond Index	1.7	1.6	3.3	N/A	2.7
S&P/TSX 60 Index	6.5	9.9	8.6	N/A	9.0
Blended Benchmark	4.1	5.7	5.4	N/A	5.3
Series F Units	2.7	4.6	3.6	N/A	3.7
FTSE TMX Canada Universe Bond Index	1.7	1.6	3.3	N/A	2.6
S&P/TSX 60 Index	6.5	9.9	8.6	N/A	9.4
Blended Benchmark	4.1	5.7	5.4	N/A	5.4
Series T Units	2.0	3.8	2.8	N/A	2.5
FTSE TMX Canada Universe Bond Index	1.7	1.6	3.3	N/A	2.6
S&P/TSX 60 Index	6.5	9.9	8.6	N/A	8.3
Blended Benchmark	4.1	5.7	5.4	N/A	5.0
Series V Units	1.9	3.7	2.7	N/A	2.8
FTSE TMX Canada Universe Bond Index	1.7	1.6	3.3	N/A	2.6
S&P/TSX 60 Index	6.5	9.9	8.6	N/A	9.0
Blended Benchmark	4.1	5.7	5.4	N/A	5.3

The FTSE TMX Canada Universe Bond Index is a market capitalization-weighted index designed to be a broad measure of the Canadian investment grade fixed income market.

The S&P/TSX 60 Index is a capitalization-weighted index. It consists of 60 of the largest and most liquid (heavily traded) stocks listed on the Toronto Stock Exchange, which are usually domestic or multinational industry leaders.

The FTSE TMX Canada High Yield Bond Index is a market capitalization-weighted index designed to be a broad measure of the Canadian non-investment grade fixed income market.

For a discussion of the relative performance of the Fund as compared to the indices, see Results of Operations in the Management Discussion of Fund Performance.

## Summary of Investment Portfolio

As at September 30, 2018

The major portfolio categories and top holdings (up to 25) of the Fund at the end of the period are indicated in the following tables. The Summary of Investment Portfolio may change due to ongoing portfolio transactions of the Fund and the next quarterly update will be in the Quarterly Portfolio Disclosure as at December 31, 2018.

The prospectus and other information about the underlying investment funds are available on the internet at [www.sedar.com](http://www.sedar.com).

Portfolio by Sector	Percentage of Net Asset Value (%)
Fixed Income Funds	66.1
Equity Funds	26.9
Cash & Cash Equivalents	7.1

Top Holdings	Percentage of Net Asset Value (%)
AGF Fixed Income Plus Fund	34.1
AGF High Yield Bond Fund	32.0
AGFiQ Dividend Income Fund	26.9
<b>Total Net Asset Value (thousands of dollars)</b>	<b>\$ 36,092</b>
