

Annual Management Report of Fund Performance

AGF Global Convertible Bond Fund

September 30, 2018

Management Discussion of Fund Performance

This management discussion of fund performance represents the portfolio management team's view of the significant factors and developments affecting the fund's performance and outlook.

Investment Objective and Strategies

Pursuant to the Declaration of Trust, the investment objective of AGF Global Convertible Bond Fund (the "Fund") is to generate attractive long-term returns through interest income and capital appreciation by investing primarily in global convertible bonds issued by companies from around the world of all market capitalizations, including, but not limited to: corporate bonds, debentures, notes or preferred stocks; all of which can be converted into common stock providing an opportunity for equity participation. AGF Investments Inc. ("AGFI"), as portfolio manager, combines a top-down investment approach to category and sector allocation with a bottom-up investment approach to security selection. A top-down investment approach involves looking at the "big picture" in the economy and financial world and then breaking those components down into finer details. A bottom-up investment approach focuses attention on a specific company rather than on the industry in which that company operates or on the economy as a whole. The portfolio manager diversifies the portfolio by sector as well as by issuer, and attempts to mitigate interest rate risk by monitoring both the issuers and the duration of the portfolio. Duration exposure is the sensitivity of the portfolio due to changes in interest rates. In periods of unusual market conditions, a significant portion of the Fund's assets may be held in cash, cash equivalents or fixed income securities.

Risk

The risks of investing in the Fund remain as disclosed in the current prospectus. The Fund continues to be suitable for investors investing for the longer term, seeking investments in global convertible bond funds and who have low to medium tolerance for risk.

Results of Operations

For the year ended September 30, 2018, the Mutual Fund Units of the Fund returned 10.5% (net of expenses) while the Bloomberg Barclays Global Convertibles Index returned 5.8%. The performance of the other series of the Fund is substantially similar to that of the Mutual Fund Units, save for differences in expense structure. Refer to "Past Performance" section for performance information of such series.

The Fund out-performed the Bloomberg Barclays Global Convertibles Index due to its strong security selection and geographic exposure. Square Inc., a U.S.-based financial

services provider, was a top contributor to the Fund's out-performance, as the company's stock price appreciated over 200.0% during the reporting period in part to its competitive advantage and growth prospects. A positive environment for the information technology sector as a whole also supported returns. The portfolio manager also found success in Canadian convertible bond issues, such as Just Energy Inc. With approximately 20.4% of the Fund's geographic exposure attributed to Canadian holdings, relative to the benchmark which does not have exposure to Canada, strong equity-like returns from select Canadian companies contributed to the Fund's relative out-performance.

The Fund entered into foreign exchange forward contracts during the period under review. As of September 30, 2018, the Fund was long Canadian dollar and short Euro, Japanese Yen and U.S. dollar in order to hedge its currency exposure.

Certain series of the Fund, as applicable, make quarterly/monthly distributions at a rate determined by AGFI from time to time. If the aggregate amount of the quarterly/monthly distributions made to a series in a year exceeds the portion of the net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The portfolio manager does not believe that the distributions made by the Fund had a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objectives.

The Fund had net subscriptions of approximately \$125 million for the current period, as compared to net redemptions of approximately \$5 million in the prior period. The portfolio manager does not believe that subscription/redemption activity had a meaningful impact on the Fund's performance or the ability to implement its investment strategy.

Total expenses before foreign withholding taxes, commissions and other portfolio transaction costs vary period over period mainly as a result of changes in average Net Asset Values (see Explanatory Note (1) a)) and investor activity, such as number of investor accounts and transactions. Expenses have slightly increased as compared to the previous period due mainly to an increase in market value of investment portfolio. The decrease in interest expense was due to a decrease in overdraft positions throughout the period. All other expenses remained fairly consistent throughout the periods.

Recent Developments

The portfolio manager remains constructive towards global growth over the medium term as strong company fundamentals and economic data are supportive. However, trade uncertainty and political turmoil could temper near term returns with periods of unsettled markets along the way.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1 800 268-8583, by writing to us at AGF Investments Inc., 55 Standish Court, Suite 1050, Mississauga, Ontario, Canada L5R 0G3 attention: Client Services, or by visiting our website at www.agf.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Trade-related risks have abated with a resolution reached over North American Free Trade Agreement ("NAFTA"), though tensions between the U.S. and China could escalate further, which would weigh on market performance and economic activity. Apart from higher input costs and consumer prices, sentiment around investments and capital expenditure decisions, as well as risk premiums, may also be negatively impacted. The portfolio manager anticipates that an eventual agreement between the U.S. and China will ultimately be established, given the high potential costs of the alternative. However, the level of tariffs could worsen in the near term before conditions improve.

Risk of trade uncertainty and the absence of meaningful inflationary pressure could reduce the need for higher interest rates, though the U.S. Federal Reserve (the "Fed") appears committed to its guided pace of tightening in the near term. In the portfolio manager's opinion, the market will be increasingly focused on the Fed for early signals of policy misstep, provided 11 of the past 14 recessions have been linked to action taken by the central bank. Further rate hikes would add pressure to the short end of the curve and contribute to further flattening, however the high debt and slower growth nature of the current economic environment would conceptually be expected to produce a flatter curve. This alleviates the portfolio manager's concerns arising from curve flattening to a degree, instead suggesting that today's global economy may be able to withstand a flatter curve for a prolonged period of time.

The Bank of Canada ("BoC") is poised to continue with monetary policy tightening as the overhang of NAFTA uncertainty is defused. As long as economic data remains supportive, the portfolio manager expects that the BoC will attempt to keep pace with Fed tightening. However, Canadian overheated housing market in combination with record-high household debt levels could force the central bank's hand over the longer term.

U.S. dollar strength has served as an obstacle for global fixed income markets in 2018. In the portfolio manager's opinion, this trend will not be sustained over the longer term and a degree of reversion should take place as trade deficits weigh on the currency.

In the portfolio manager's view, bond yields will continue to move higher as central banks continue to tighten policy, albeit generally remain range-bound in the near term. While the level of yields is certainly worth monitoring, the pace of such shifts is believed to be the greater threat to market growth.

The portfolio manager believes that equities, and hence convertible bonds, should still perform well relative to bonds in the medium term as earnings growth continues to rebound along with economic growth.

Effective December 11, 2017, the risk rating of the Fund was changed from "low" to "low to medium". The change reflects compliance with the new Canadian Securities Administrators' Mutual Fund Risk Classification Methodology. No material changes have been made to the investment objective, strategies or management of the Fund.

Effective October 1, 2018, certain operating expenses relating to registrar and transfer agency services are paid directly by AGFI and in exchange, a fixed rate administration fee was introduced for the Mutual Fund Series, Series D, Series F, Series I, Series J, Series T and Series V Units, as applicable, of the Fund. The administration fee was approved by the unitholders of the Fund on June 14, 2018. The administration fee for each applicable series is calculated daily and payable monthly, based on the average Net Asset Value of the respective series of the Fund at a fixed annual rate, as disclosed in the current prospectus. The Fund continues to pay for all other operating expenses.

Related Party Transactions

AGFI is the manager ("Manager") and trustee of the Fund. Pursuant to the management agreement between the Fund and AGFI, AGFI is responsible for the day-to-day business of the Fund. AGFI also acts as the investment (portfolio) manager, managing the investment portfolio of the Fund. Under the management agreement, the Fund (except for Series I, Series O, Series Q and Series W Units, if applicable) pays management fees calculated based on the Net Asset Value of the respective series of the Fund. Management fees of approximately \$217,000 were incurred by the Fund during the period ended September 30, 2018.

AGF CustomerFirst Inc. ("AGFC") provides transfer agency services to the Fund pursuant to a services agreement with AGFI. Unitholder servicing and administrative fees of approximately \$16,000 incurred by the Fund were paid to AGFC during the period ended September 30, 2018.

AGFI and AGFC are indirect wholly-owned subsidiaries of AGF Management Limited.

Caution Regarding Forward-looking Statements

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

The forward-looking statements are by their nature based on numerous assumptions, which include, amongst other things, that (i) the Fund can attract and maintain investors and has sufficient capital under management to effect its investment strategies, (ii) the investment strategies will produce the results intended by the portfolio manager, and (iii) the markets will react and perform in a manner consistent with the investment strategies. Although the forward-looking statements contained herein are based upon what the

portfolio manager believes to be reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five years as applicable.

Explanatory Notes

(1) a) This information is derived from the Fund's audited annual financial statements. Under International Financial Reporting Standards ("IFRS"), investments that are traded in an active market are generally valued at closing price, which is determined to be within the bid-ask spread and most representative of fair value. As a result, there is no difference between the net assets per unit presented in the financial statements ("Net Assets") and the net asset value per unit calculated for fund pricing purposes ("Net Asset Value").

Total Net Asset Value and number of units outstanding presented as at September 30, 2015 may have been adjusted to include certain transactions, if applicable, for the purpose of comparability with subsequent reporting periods. These adjustments have no effect on the Net Asset Value per unit.

b) The following series of the Fund commenced operations on the following dates, which represents the date upon which securities of a series were first made available for purchase by investors.

* represents initial Net Assets

- annualized

(1), (2), (3), (4), (5), (6), (7) and (8) see Explanatory Notes

Mutual Fund Units	January 2015
Series F Units	January 2015
Series I Units	July 2018
Series Q Units	January 2015
Series V Units	January 2015
Series W Units	January 2015

- (2) Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.
- (3) Distributions were paid in cash/reinvested in additional units of the Fund, or both. The computation of the distributions per unit does not take into account the management fee distributions (see note 5 below). The characterization of the distributions is based on management's estimate of the actual income for the year.
- (4) This is not a reconciliation of the beginning and ending Net Assets per unit.
- (5) The management expense ratio ("MER") of a particular series is calculated in accordance with National Instrument 81-106, based on all the expenses of the Fund (including Harmonized Sales Tax, Goods and Services Tax and interest, but excluding foreign withholding taxes, commissions and other portfolio transaction costs) and the Fund's proportionate share of the MER, if applicable, of the underlying funds and exchange traded funds ("ETFs") in which the Fund has invested, allocated to that series, expressed as an annualized percentage of average daily Net Asset Value of that series during the period.

AGFI may reduce the effective management fee payable by some unitholders by reducing the management fee it charges to the Fund and directing the Fund to make management fee distributions to these unitholders in amounts equal to the amounts of the management fee reduction. The MER does not take into account the reduction in management fees due to management fee distributions to unitholders.
- (6) AGFI waived certain fees or absorbed certain expenses otherwise payable by the Fund. The amount of expenses waived or absorbed is determined annually on a series by series basis at the discretion of AGFI and AGFI can terminate the waiver or absorption at any time.
- (7) The trading expense ratio represents total commissions and other portfolio transaction costs, including the Fund's proportionate share of the commissions, if applicable, of the underlying funds and ETFs in which the Fund has invested, expressed as an annualized percentage of average daily Net Asset Value during the period.
- (8) The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio advisor manages its portfolio investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's PTR in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable

capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

PTR is calculated based on the lesser of the cumulative cost of purchases or cumulative proceeds of sales divided by the average market value of the portfolio, excluding short-term investments.

Management Fees

The Fund is managed by AGFI. As a result of providing investment and management services, AGFI receives a monthly management fee, based on the Net Asset Value of the respective series, calculated daily and payable monthly. Management fees in respect of Series I, Series O, Series Q and Series W Units, if applicable, are arranged directly between the Manager and investors and are not expenses of the Fund. AGFI uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund's units, investment advice, as well as for general administrative expenses such as overhead, salaries, rent, legal and accounting fees relating to AGFI's role as manager.

	As a percentage of management fees		
	Annual rates	Dealer compensation	General administration and investment advice
Mutual Fund Units	1.70%	51.18%	48.82%
Series F Units	0.95%	-	100.00%
Series V Units	1.70%	44.94%	55.06%

Past Performance*

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. Note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

It is AGFI's policy to report rates of return for series in existence greater than one year. The performance start date for each series represents the date of the first purchase of such series, excluding seed money. Series I Units commenced operations in July 2018.

All rates of return are calculated based on the Net Asset Value.

Year-By-Year Returns

The following bar charts show the Fund's annual performance for each of the past 10 years to September 30, 2018 as applicable, and illustrate how the Fund's performance has changed from year to year. The charts

* The indicated rates of return shown here are the historical annual compounded total returns including changes in security value and reinvestment of all distributions and do not take into account sales, redemption, distribution or other optional charges by any securityholder that would have reduced returns or performance. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

show, in percentage terms, how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period.

Mutual Fund Units

Performance for 2015 represents returns for the period from January 8, 2015 to September 30, 2015.

Series F Units

Performance for 2015 represents returns for the period from January 12, 2015 to September 30, 2015.

Series Q Units

Performance for 2015 represents returns for the period from February 25, 2015 to September 30, 2015.

Series V Units

Performance for 2015 represents returns for the period from February 12, 2015 to September 30, 2015.

Series W Units

Performance for 2015 represents returns for the period from February 18, 2015 to September 30, 2015.

Annual Compound Returns

The following table compares the historical annual compound returns for each series with the index, for each of the periods ended September 30, 2018.

Percentage Return:	1 Year	3 Years	5 Years	10 Years	Since Inception
Mutual Fund Units	10.5	7.8	N/A	N/A	5.4
Bloomberg Barclays Global Convertibles Index	5.8	9.0	N/A	N/A	6.8
Series F Units	11.4	8.6	N/A	N/A	6.1
Bloomberg Barclays Global Convertibles Index	5.8	9.0	N/A	N/A	6.9
Series Q Units	12.8	9.9	N/A	N/A	6.9
Bloomberg Barclays Global Convertibles Index	5.8	9.0	N/A	N/A	6.2
Series V Units	10.6	7.8	N/A	N/A	4.9
Bloomberg Barclays Global Convertibles Index	5.8	9.0	N/A	N/A	6.5
Series W Units	12.8	9.9	N/A	N/A	6.9
Bloomberg Barclays Global Convertibles Index	5.8	9.0	N/A	N/A	6.3

The Bloomberg Barclays Global Convertibles Index tracks the return of global convertible bonds.

For a discussion of the relative performance of the Fund as compared to the index, see Results of Operations in the Management Discussion of Fund Performance.

Summary of Investment Portfolio

As at September 30, 2018

The major portfolio categories and top holdings (up to 25) of the Fund at the end of the period are indicated in the following tables. The Summary of Investment Portfolio may change due to ongoing portfolio transactions of the Fund and the next quarterly update will be in the Quarterly Portfolio Disclosure as at December 31, 2018.

The prospectus and other information about the ETFs are available on the internet at www.sedar.com and/or www.sec.gov/edgar.shtml, as applicable.
