

Annual Management Report of Fund Performance

AGF China Focus Class

September 30, 2021

Management Discussion of Fund Performance

This management discussion of fund performance represents the portfolio management team's view of the significant factors and developments affecting the fund's performance and outlook.

Investment Objective and Strategies

As described in the Simplified Prospectus, the investment objective of AGF China Focus Class (the "Fund") is to provide long-term capital growth through investing primarily in stocks and bonds of companies based in China, or in companies that will benefit from the economic development and growth in the People's Republic of China. AGF Investments Inc. ("AGFI"), as portfolio manager, uses primarily a bottom-up investment style favouring companies that are reasonably priced relative to their growth potential. A bottom-up approach focuses attention on a specific company rather than on the industry in which that company operates or on the economy as a whole. Company visits as well as interviews with competitors, suppliers and customers form a key part of the research process. Quantitative models are used to screen and generate investment ideas. Securities are selected based on proven management, strong ability to execute and scalable business models. Companies that are over-owned and have persistent negative free cash flow or volatile and unpredictable earnings are generally avoided. During periods of market downturn or for other reasons, a significant portion of the Fund's assets may be held in cash, cash equivalents or fixed income securities.

Risk

The risks of investing in the Fund remain as disclosed in the current prospectus. Any changes to the Fund over the period have not affected the overall level of risk of the Fund.

The international spread of COVID-19 has heightened certain risks associated with investing in the Fund, including liquidity risk. There are many factors that affect liquidity as well as the value of an investment. Those factors generally affect securities markets, including but not limited to general economic and political conditions, fluctuations in interest rates and factors unique to each issuer of the securities held by an investment fund, such as changes in management, strategic direction, achievement of strategic goals, mergers, acquisitions and divestitures, changes in distribution and dividend policies and other events. While the precise impact of the COVID-19 outbreak remains unknown, it has introduced uncertainty and volatility in global markets and economies. The duration of the COVID-19 outbreak and its impact cannot be determined with certainty, but it may

adversely affect the performance of the Fund. The portfolio manager, however, does not believe any changes to the Fund over the period has affected the overall risk of the Fund.

The Fund continues to be suitable for investors investing for the longer term, seeking the growth potential of equity securities of Chinese companies and China-sensitive companies and who have medium to high tolerance for risk. The suitability of the Fund has not changed from what has been disclosed in the prospectus.

Results of Operations

For the year ended September 30, 2021, the Mutual Fund Shares of the Fund returned -12.8% (net of expenses) while the MSCI China Free Index ("MSCI China Index") returned -11.8%. Unlike the benchmark, the Fund may be subject to valuation adjustments as outlined in the Fund's valuation policies as it relates to non-North American equities held by the Fund. A fair value adjustment can either positively or negatively impact the Fund's rate of return. The performance of the other series of the Fund is substantially similar to that of the Mutual Fund Shares, save for differences in the expense structure. Refer to "Past Performance" section for performance information of such series.

On an expense-adjusted basis, the Fund out-performed the MSCI China Index due to strong security selection. During the period under review, the Fund maintained broad diversification at the sector level to take advantage of potential return opportunities and to reduce risk. The Fund's exposure to the industrials, financials, information technology and consumer staples sectors contributed positively to performance, while its exposure to the consumer discretionary, materials and utilities sectors detracted.

The Fund had net redemptions of approximately \$2 million for the current period, as compared to net redemptions of approximately \$12 million in the prior period. The portfolio manager does not believe that redemption activity had a meaningful impact on the Fund's performance or the ability to implement its investment strategy.

Total expenses before foreign withholding taxes, commissions and other portfolio transaction costs vary period over period mainly as a result of changes in average Net Asset Values (see Explanatory Note (1) a)) and investor activity, such as number of investor accounts and transactions. Expenses have increased as compared to the previous period due mainly to an increase in average Net Asset Values. Registration fees increased due to an increase in subscription activity and interest expense increased due to an increase in overdraft positions throughout the period. The increase in legal fees was due to variances between the

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1 800 268-8583, by writing to us at AGF Investments Inc., 55 Standish Court, Suite 1050, Mississauga, Ontario, Canada L5R 0G3 attention: Client Services, or by visiting our website at www.agf.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

accrued amounts versus the actual expenses incurred in the previous period. All other expenses remained fairly consistent throughout the periods.

Recent Developments

The portfolio manager is positive on the outlook for global economic growth, which should be supportive of Chinese equities. The continued global policy response as the economic recovery continues is also expected to support overall equity markets in the coming year. The unprecedented monetary and fiscal policy response to date has exceeded the portfolio manager's expectations and therefore supports this positive outlook.

While Chinese equities have significantly under-performed throughout the reporting period, the portfolio manager believes the outlook for China is improving on the basis that policy normalization and peak regulation concerns are likely behind us. While the Evergrande situation continues to be closely monitored, the portfolio manager does not believe this is China's "Lehman moment" due in part to the People's Bank of China's efforts thus far to manage liquidity conditions and avoid systemic risk. In addition, while the portfolio manager believes trade tensions between the U.S. and China will persist, there is growing potential for tariff relief between the two countries.

Effective October 26, 2020, AGF Asset Management Asia Ltd. ("AGF Asia") no longer provided investment advisory services to the Fund and the Fund ceased to pay advisory fees effective the last business day prior to the termination of the investment advisory agreement.

Related Party Transactions

AGFI is the manager ("Manager") of the Fund. Pursuant to the management agreement between the Fund and AGFI, AGFI is responsible for the day-to-day business of the Fund. AGFI also acts as the investment (portfolio) manager, managing the investment portfolio of the Fund. Prior to October 26, 2020, the Fund was also party to an investment advisory agreement with AGFI and AGF Asia. AGF Asia acted as an investment advisor and provided investment advisory services to the Fund until the termination date as discussed in the "Recent Developments" section. Under the management and investment advisory agreements, the Fund (except for Series I, Series O, Series Q and Series W Shares, if applicable) pays management and advisory fees, calculated based on the Net Asset Value of the respective series of the Fund. Management and advisory fees of approximately \$1,960,000 were incurred by the Fund during the period ended September 30, 2021.

Certain operating expenses relating to registrar and transfer agency services are paid directly by AGFI and in exchange, a fixed rate administration fee is payable by the Mutual Fund Series, Series F, Series FV, Series I, Series T and Series V Shares, as applicable, of the Fund. The administration fee is calculated based on the Net Asset Value of the respective series of the Fund at a fixed annual rate, as disclosed in the

current prospectus. Administration fees of approximately \$178,000 were incurred by the Fund during the period ended September 30, 2021.

AGFI is an indirect wholly-owned subsidiary of AGF Management Limited ("AGF"). AGF Asia was a direct wholly-owned subsidiary of AGF prior to its wind-up effective July 12, 2021.

Caution Regarding Forward-looking Statements

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

The forward-looking statements are by their nature based on numerous assumptions, which include, amongst other things, that (i) the Fund can attract and maintain investors and has sufficient capital under management to effect its investment strategies, (ii) the investment strategies will produce the results intended by the portfolio manager, and (iii) the markets will react and perform in a manner consistent with the investment strategies. Although the forward-looking statements contained herein are based upon what the portfolio manager believes to be reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, taxation, changes in government regulations, unexpected judicial or regulatory proceedings, technological changes, cybersecurity, the possible effects of war or terrorist activities, outbreaks of disease or illness that affect local, national or international economies (such as COVID-19), natural disasters and disruptions to public infrastructure, such as transportation, communications, power or water supply or other catastrophic events.

It should be stressed that the above-mentioned list of factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific

Explanatory Notes

- (1) a) This information is derived from the Fund's audited annual financial statements. Under International Financial Reporting Standards ("IFRS"), investments that are traded in an active market are generally valued at closing price, which is determined to be within the bid-ask spread and most representative of fair value. As a result, there is no difference between the net assets per share presented in the financial statements ("Net Assets") and the net asset value per share calculated for fund pricing purposes ("Net Asset Value").
- b) The following series of the Fund commenced operations on the following dates, which represents the date upon which securities of a series were first made available for purchase by investors.
- | | |
|--------------------|--------------|
| Mutual Fund Shares | April 1994 |
| Series F Shares | January 2000 |
| Series O Shares | April 2021 |
- c) In April 2021, the Fund recommenced the offering of Series O Shares that are available to institutional investors. Series O Shares previously commenced

offering in August 2004 and was closed due to full redemption by shareholders in December 2015. The financial data of Series O Shares includes the results of operations from date of recommencement.

- (2) Net Assets, dividends and distributions are based on the actual number of shares outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of shares outstanding over the financial period.
- (3) Dividends and distributions were paid in cash/reinvested in additional shares of the Fund, or both.
- (4) This is not a reconciliation of the beginning and ending Net Assets per share.
- (5) The management expense ratio ("MER") of a particular series is calculated in accordance with National Instrument 81-106, based on all the expenses of the Fund (including Harmonized Sales Tax, Goods and Services Tax, income tax and interest, but excluding foreign withholding taxes, commissions and other portfolio transaction costs) and the Fund's proportionate share of the MER, if applicable, of the underlying funds and exchange traded funds ("ETFs") in which the Fund has invested, attributable to that series, expressed as an annualized percentage of average daily Net Asset Value of that series during the period. For new series launched, the MER is annualized from the date of the first external purchase.
- (6) AGFI waived certain fees or absorbed certain expenses otherwise payable by the Fund. The amount of expenses waived or absorbed is determined annually on a series by series basis at the discretion of AGFI and AGFI can terminate the waiver or absorption at any time.
- (7) The trading expense ratio represents total commissions and other portfolio transaction costs, including the Fund's proportionate share of the commissions, if applicable, of the underlying funds and ETFs in which the Fund has invested, expressed as an annualized percentage of average daily Net Asset Value during the period.
- (8) The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio advisor manages its portfolio investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's PTR in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

PTR is calculated based on the lesser of the cumulative cost of purchases or cumulative proceeds of sales divided by the average market value of the portfolio, excluding short-term investments.

Management Fees

The Fund is managed by AGFI. As a result of providing investment and management services, AGFI receives a monthly management fee, based on the Net Asset Value of

the respective series, calculated daily and payable monthly. Management fees in respect of Series I, Series O, Series Q and Series W Shares, if applicable, are arranged directly between the Manager and investors and are not expenses of the Fund. AGFI uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund's shares, investment advice, as well as for general administrative expenses such as overhead, salaries, rent, legal and accounting fees relating to AGFI's role as manager.

	As a percentage of management fees		
	Annual rates	Dealer compensation	General administration and investment advice
Mutual Fund Shares	2.50%	44.04%	55.96%
Series F Shares	1.50%	-	100.00%

Past Performance*

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. Note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

It is AGFI's policy to report rates of return for series in existence greater than one year. The performance start date for each series represents the date of the first purchase of such series, excluding seed money. Series O Shares recommenced operations in April 2021.

All rates of return are calculated based on the Net Asset Value.

Year-By-Year Returns

The following bar charts show the Fund's annual performance for each of the past 10 years to September 30, 2021 as applicable, and illustrate how the Fund's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period.

Mutual Fund Shares

* The indicated rates of return shown here are the historical annual compounded total returns including changes in security value and reinvestment of all distributions and do not take into account sales, redemption, distribution or other optional charges by any securityholder that would have reduced returns or performance. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
