## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

*For the six-month period ended June 30, 2021*

**PRIMERICA CANADIAN MONEY MARKET FUND**

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling 1-800-510-7375, by writing to us at Operations Centre, 1050-55 Standish Court, Mississauga, Ontario, Canada L5R 0G3 attention: Primerica Concert Client Services, by e-mailing us at [concert@primerica.com](mailto:concert@primerica.com) or by visiting SEDAR at [www.sedar.com](http://www.sedar.com).

Securityholders may also contact us using one of these methods to request a copy of the investment fund's annual financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

### **Caution Regarding Forward-looking Statements**

This report may contain forward-looking statements about the Primerica Canadian Money Market Fund (the “Fund”), including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that, unless required by law, the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance. In connection with any forward-looking statements, you should carefully consider the areas of risk described in the most recent simplified prospectus of the Fund. You may obtain these documents from SEDAR at [www.sedar.com](http://www.sedar.com).

---

## Management Discussion of Fund Performance

### Investment Objectives and Strategies

The Primerica Canadian Money Market Fund (the “Fund”) seeks to earn current income while focusing on the protection of capital and liquidity by investing primarily directly or indirectly through one or more other mutual funds in high quality Canadian money market instruments. The Fund currently invests primarily in one or more money market underlying mutual funds (the “Underlying Funds”) managed, by AGF Investments Inc. (“AGF”).

PFSL Fund Management Ltd. (“PFSL” or the “Manager”) retains the services of a portfolio adviser in determining the Fund’s portfolio allocations. Specifically, PFSL has retained LifeWorks Investment Management Ltd. (“LifeWorks”), which changed its name from Morneau Shepell Asset & Risk Management Ltd. in May 2021. LifeWorks functions as the portfolio adviser, recommending asset mix and investment selection decisions for the Fund. PFSL has also retained AGF to act as an additional portfolio adviser of the Fund, as more fully described herein.

### Risk

The risks of investing in the Fund remain as described in the Simplified Prospectus. The Fund also continues to be suitable only for investors who are seeking current income, want an investment that emphasizes safety and relative stability of principal and have a low tolerance for risk.

### Results of Operations

The Fund, for the six months ended June 30, 2021, returned 0.0% (net of expenses). The Fund is assessed against the Bloomberg Barclays Canada 1-3 Month T-Bill Index which returned 0.0% over the same period. On an expense-adjusted basis, the Fund out-performed its benchmark.

Central banks worldwide continue to keep interest rates low in the first half of 2021, though fixed income instruments – particularly longer-duration assets – have fallen year-to-date as bond yields started rising at the start of the year on the back of rising inflation and future expectations.

The Fund maintains its exposure to money market instruments backed by Canadian financial institutions (which yields slightly more than the corresponding government benchmark bonds), though it was unable to meaningfully outperform the benchmark in light of the current low interest-rate environment.

### Recent Developments

Overall, the underlying portfolio adviser believes that bond yields will continue to rise to the end of 2021, but not to the extent nor magnitude of the rise in bond yields that markets saw in the first half of the year. The exceptionally abrupt rise in the first half was driven by one-off inflation contributors such as used cars sale prices, and many fiscal stimulus programs in Canada and the U.S. have either passed or are expected to expire later this year. There are also deflationary aspects such as high debt levels and aging demographics that will work to stall those inflationary factors that helped pushed yields up so dramatically.

From an economic perspective, the portfolio adviser is constructive on the fact that global economic re-normalization will be staggered due to the pace of vaccine rollouts worldwide, as this slower phased opening will allow the recovery to be more sustained. A more synchronous and coordinated recovery would have introduced greater risk of economies overheating.

The expectation for the U.S. is that the Federal Reserve will not act to raise rates until the tail end of 2022 at the earliest, unless a dramatic catalyst like high inflation occurs. Expectations are also that Canadian government bond yields will rise into the near future, but there will be an ongoing push-pull dynamic in the market, with yields pulled higher as inflation continues to course through the economic system and expectations that may be underestimating the actual pace of inflation. The push lower will come with the expected announcement of quantitative tapering, though the risk remains that the Bank of Canada may be overly ambitious and run too far ahead of the Federal Reserve in curtailing its monetary policies.

The last risk that the portfolio adviser cites is the ongoing effect of COVID-19 and its variants, which earlier in the pandemic exposed fixed income markets to the realities of illiquidity, when trading volume evaporated at the outset of the crisis and required monetary authorities to step in to correct. The portfolio adviser believes the precise impact of the pandemic remains unknown, but it does introduce greater uncertainty and volatility into markets and economics going forward.

### International Financial Reporting Standards

The Fund’s financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) as published by the International Accounting Standards Board (IASB).

**Related Party Transactions**

PFSL is the manager and trustee of the Fund and is paid a management fee for providing investment management and administration services to the Fund. In addition to the management fees described below, the Fund incurred legal expenses of \$2,242 that were paid to Primerica Life Insurance Company of Canada, an affiliate of PFSL and fees of \$8,915 to members of the IRC.

PFSL Investments Canada Ltd., PFSL's parent company and a mutual fund dealer, is the exclusive distributor of the Fund, responsible for the marketing of the units and the selling of the units through its representatives.

The Fund is actively managed by Lifeworks, which provides ongoing oversight, asset allocation, fund analysis and related portfolio adviser services, while AGF in its portfolio adviser capacity advises on daily trades. Any fees for services provided by the portfolio advisers are included in the management fee.

The Fund did not rely on an approval, positive recommendation or standing instruction from the Fund's IRC with respect to any related party transactions.

All related party transactions are measured at fair value.

**Management Fees**

In consideration for providing investment management and administration services, the Fund paid PFSL management fees of \$73,253 for the six-month period ended June 30, 2021 calculated daily at 0.41% of the net asset value of the Fund and paid out monthly. The Fund received from AGF or the Underlying Funds, management fee rebates at an annual rate between 0.31% and 0.35% of the net asset value of the Underlying Funds, such that the net management fee charged to the Fund was limited to an amount not exceeding 0.10% of the net asset value of the Fund. For the six-month period ended June 30, 2021, the Fund received management fee rebates of \$9,818 and the net management fee borne directly by the Fund was \$63,435.

The management fees were borne by both the Fund and the Underlying Funds in which the Fund invests. No management fee was paid by the Fund that would duplicate the fee payable by the Underlying Funds for the same service.

The major services paid by the management fees expressed as a percentage of said management fees may be summarized as follows:

(i)	Investment advisory	1%
(ii)	Administration and other	99%

No portion of the management fees paid to PFSL by the Fund was used to finance commissions earned by PFSL sales representatives or promotional activities of the Fund.

**Financial Highlights**

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the six-month period ended June 30, 2021 and for each of the past five years.

<b>The Fund's Net Assets Per Unit (1) (9):</b>	<b>June 30 2021</b>	<b>Dec.31 2020</b>	<b>Dec.31 2019</b>	<b>Dec.31 2018</b>	<b>Dec.31 2017</b>	<b>Dec. 31 2016</b>
	<b>\$</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>
<b>Net Assets - beginning of year (2)</b>	10.00	10.00	10.00	10.00	10.00	10.00

Net asset value per unit	10.00	10.00	10.00	10.00	10.00	10.00

\*Annualized

Explanatory notes:

- (1) This information is derived from the Fund's unaudited semi-annual financial statements and audited annual financial statements.
- (2) Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.
- (3) Distributions were reinvested in additional units of the Fund or paid in cash.
- (4) The per unit financial information is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) from operations being based on the weighted average units outstanding during the period and the distributions being based on actual units outstanding at the relevant point in time.
- (5) This information is provided as at June 30 and December 31 of the years shown.
- (6) The management expense ratio is based on the total expenses (excluding commissions and other portfolio transaction costs) of the Fund and the Underlying Funds for the year, expressed as an annualized percentage of the average daily net asset value of the Fund during the period.

PFSL may reduce the effective management fee payable by some unitholders by reducing the management fee it charges to the Fund and directing the Fund to make management fee distributions to these unitholders in the amounts equal to the amounts of the management fee reduction. The management expense ratio does not take into account the reduction in management fees due to management fee distributions to unitholders.

- (7) Where applicable, PFSL waived certain fees or absorbed certain expenses otherwise payable by the Fund. Absorption amounts are determined annually at the discretion of PFSL and can be terminated at any time.
- (8) The Fund did not directly incur any brokerage commissions or other portfolio transaction costs during the period. The trading expense ratio represents the proportion of total commissions and other portfolio transaction costs of the Underlying Funds applicable to the Fund expressed as an annualized percentage of the average daily net asset value of the Fund during the period.
- (9) All figures presented in the tables are prepared in accordance with IFRS.

**Past Performance**

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund, and would be lower if distributions were not reinvested. Note that the performance does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

**Year-By-Year Returns**

The bar chart below shows the Fund’s annual performance for the six-month period ended June 30, 2021 and for each of the years shown, and illustrates how the Fund’s performance has changed from year to year. It shows, in percentage terms, how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period.

**Summary of Investment Portfolio**

As at June 30, 2021

The major portfolio categories and top holdings (up to 25) of the Fund at the end of the period are indicated in the following tables.

**PLEASE NOTE THAT THIS IS THE SUMMARY PORTFOLIO FOR THE AGF CANADIAN MONEY MARKET FUND. TOTAL NET ASSET VALUE OF THE PRIMERICA CANADIAN MONEY MARKET FUND IS DISCLOSED AT THE BOTTOM OF THE PAGE IMMEDIATELY BELOW THE TOTAL NET ASSET VALUE OF THE AGF CANADIAN MONEY MARKET FUND.**

ALLOCATION SERIES

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the Simplified Prospectus before investing. The indicated rates of return are the historical annual total returns including changes in unit value and reinvestment of all distributions and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. The rate of return is used only to illustrate the effects of the growth rate and is not intended to reflect future values of the mutual fund or returns on investment in the mutual fund.

The payment of distributions should not be confused with a fund's performance, rate of return or yield. If distributions paid by the fund are greater than the performance of the fund, your original investment will shrink. Distributions paid as a result of capital gains realized by a fund, and income and dividends earned by a fund are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base falls below zero, you will have to pay capital gains tax on the amount below zero.
