

**Interim Management Report of Fund Performance**

# **AGF Canadian Money Market Fund**

March 31, 2025

## Management Discussion of Fund Performance

This management discussion of fund performance represents the portfolio management team's view of the significant factors and developments affecting the fund's performance and outlook.

### Results of Operations

For the six months ended March 31, 2025, the Mutual Fund Units of AGF Canadian Money Market Fund (the "Fund") returned 1.0% (net of expenses) while the Bloomberg Canada 1-3 Month T-Bill Index returned 1.8%. The performance of the other series of the Fund is substantially similar to that of the Mutual Fund Units, save for differences in expense structure. Refer to "Past Performance" section for performance information of such series.

On an expense-adjusted basis, the Fund slightly outperformed the Bloomberg Canada 1-3 Month T-Bill Index. Following the beginning of the Bank of Canada's ("BoC") rate-cutting cycle in June 2024, the Fund's average term to maturity was gradually reduced to neutral in the second half of 2024 as the relative attractiveness of the long end of the curve decreased. Due to the relatively illiquid nature of Bearer Deposit Notes ("BDNs"), the Fund has been gradually rolling BDN maturities into government bills.

Leading to an initial decrease in rate cut expectations from the BoC in 2025, the Fund increased its term to maturity above neutral after seeing yields back up, which contributed to overall performance as fears of a potential recession grew later in the quarter.

The Fund had net subscriptions of approximately \$12 million for the current period, as compared to net redemptions of approximately \$11 million in the prior period. The portfolio manager does not believe that subscription/redemption activity had a meaningful impact on the Fund's performance or the ability to implement its investment strategy.

### Recent Developments

During the reporting period, global bond markets experienced negative returns owing to a rise in treasury yields amid sticky inflation and resilient economic conditions, which prompted the U.S. Federal Reserve to take a more temperate approach to cutting rates relative to other developed market central banks. In the last calendar quarter of 2024, resilient U.S. economic data, geopolitical conflicts and fiscal concerns around higher debt levels in developed nations had an offsetting effect, which drove treasury yields higher. Most markets witnessed year-over-year progress on inflation, which allowed central banks to continue their monetary easing cycle.

Headline inflation in Canada surged to 2.6% year-over-year in February 2025, marking the highest level in eight months and exceeding the BoC forecast of 2.5%. The rise was mostly due to the end of the goods and services tax and the harmonized tax breaks halfway through the reporting period, which led to sharp increases in the price of eligible goods. Core inflation also increased to 2.7% in February 2025 from 1.7% in October 2024. Unemployment came at 6.7% in March 2025, up from 6.6% in October 2024, and was in line with market expectations.

Despite the rise in inflation, the BoC lowered the policy interest rate by 1.50% over the period to 2.75% at its March 2025 meeting. The central bank reduced rates by 0.50% in both October and December 2024, followed by 0.25% cuts in January and March 2025. Further, the BoC stated that the country's economy experienced a stronger-than-expected growth in the last calendar quarter of 2024, supported by previous rate cuts. However, growth for the first calendar quarter of 2025 is anticipated to decelerate due to escalating trade tensions with the U.S.

The BoC's interest rate cuts are expected to fuel economic activity and support consumer and business confidence. Canada's resource-heavy sectors, such as energy and mining, are poised to benefit from rising global commodity demand. Additionally, Canadian companies may stand to benefit from the ongoing momentum in European equities and potential policy shifts in the U.S.

Effective October 1, 2024, AGF Investments Inc. ("AGFI") pays for all the operating expenses of the Fund (except for certain costs as disclosed in the current prospectus) in exchange for an annual fixed rate administration fee payable by the applicable series of the Fund, and in return, the administration fee relating to registrar and transfer agency services was eliminated. The adoption of the fixed rate administration fee was approved by the securityholders of the Fund at the special securityholder meeting held on June 12, 2024.

### Related Party Transactions

AGFI is the manager ("Manager") and trustee of the Fund. Pursuant to the management agreement between the Fund and AGFI, AGFI is responsible for the day-to-day business of the Fund. AGFI also acts as the investment (portfolio) manager, managing the investment portfolio of the Fund. Under the management agreement, the Fund (except for Series I, Series O, Series Q and Series W Units, if applicable) pays management fees, calculated based on the Net Asset Value of the respective series of the Fund. Management fees of approximately \$452,000 were incurred by the Fund during the six months ended March 31, 2025.

This interim management report of fund performance contains financial highlights, but does not contain either the interim or annual financial statements of the investment fund. You can get a copy of the interim or annual financial statements at your request, and at no cost, by calling 1 800 268-8583, by writing to us at AGF Investments Inc., CIBC SQUARE, Tower One, 81 Bay Street, Suite 4000, Toronto, Ontario, Canada M5J 0G1 attention: Client Services, or by visiting our website at [www.agf.com](http://www.agf.com) or SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

All of the operating expenses relating to the operation of the Fund (except for certain costs as disclosed in the current prospectus) are paid directly by AGFI and in exchange, a fixed rate administration fee is payable by the Mutual Fund Series, Series F, Series FV, Series I, Series T and Series V Units, as applicable, calculated based on the Net Asset Value of the respective series. Administration fees of approximately \$241,000 were incurred by the Fund during the six months ended March 31, 2025.

AGFI is an indirect wholly-owned subsidiary of AGF Management Limited.

## Caution Regarding Forward-looking Statements

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

The forward-looking statements are by their nature based on numerous assumptions, which include, amongst other things, that (i) the Fund can attract and maintain investors and has sufficient capital under management to effect its investment strategies, (ii) the investment strategies will produce the results intended by the portfolio manager, and (iii) the markets will react and perform in a manner consistent with the investment strategies. Although the forward-looking statements contained herein are based upon what the portfolio manager believes to be reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, taxation, changes in government regulations, unexpected judicial or regulatory proceedings, technological changes, cybersecurity, the possible effects of war or terrorist activities, outbreaks of disease or illness that affect local, national or international economies (such as COVID-19), natural disasters and

disruptions to public infrastructure, such as transportation, communications, power or water supply or other catastrophic events.

It should be stressed that the above-mentioned list of factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

## Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the six months ended March 31, 2025 and the past five years as applicable.

Net Asset Value per unit	10.00	10.00	10.00	10.00	10.00	10.00

## Explanatory Notes

- (1) a) This information is derived from the Fund's audited annual financial statements and unaudited interim financial statements. Under International Financial Reporting Standards ("IFRS"), investments that are traded in an active market are generally valued at closing price, which is determined to be within the bid-ask spread and most representative of fair value. As a result, there is no difference between the net assets per unit presented in the financial statements ("Net Assets") and the net asset value per unit calculated for fund pricing purposes ("Net Asset Value").
- b) The following series of the Fund commenced operations on the following dates, which represents the date upon which securities of a series were first made available for purchase by investors.

Mutual Fund Units	December 1975
Series F Units	January 2000
Series O Units	September 2014

- (2) Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.
- (3) Distributions were paid in cash/reinvested in additional units of the Fund, or both. The computation of the distributions per unit does not take into account the management fee distributions, if applicable (see note 5 below). The characterization of the distributions is based on management's estimate of the actual income for the year.
- (4) This is not a reconciliation of the beginning and ending Net Assets per unit.
- (5) The management expense ratio ("MER") of a particular series is calculated in accordance with National Instrument 81-106, based on all the expenses of the Fund (including Harmonized Sales Tax, Goods and Services Tax and interest, but excluding foreign withholding taxes, commissions and other portfolio transaction costs) allocated to that series, expressed as an annualized percentage of average daily Net Asset Value of that series during the period. For new series launched during the period, the MER is annualized from the date of the first external purchase.

AGFI may reduce the effective management fee payable by some unitholders by reducing the management fee it charges to the Fund and directing the Fund to make management fee distributions to these unitholders in amounts equal to the amounts of the management fee reduction. The MER does not take into account the reduction in management fees due to management fee distributions to unitholders.

Effective March 31, 2023, the MERs before and after waivers or absorptions for the period ended September 30, 2021 for Mutual Fund Units and Series F Units have been amended as they were previously reported incorrectly.

- (6) AGFI waived certain fees or absorbed certain expenses otherwise payable by the Fund. The amount of expenses waived or absorbed is determined annually on a series by series basis at the discretion of AGFI and AGFI can terminate the waiver or absorption at any time.
- (7) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average daily Net Asset Value during the period.
- (8) The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio advisor manages its portfolio investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's PTR in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

PTR is calculated based on the lesser of the cumulative cost of purchases or cumulative proceeds of sales divided by the average market value of the portfolio, excluding short-term investments.

Management Fees

The Fund is managed by AGFI. As a result of providing investment and management services, AGFI receives a monthly management fee, based on the Net Asset Value of the respective series, calculated daily and payable monthly. Management fees in respect of Series I, Series O, Series Q and Series W Units, if applicable, are arranged directly between the Manager and investors and are not expenses of the Fund. AGFI uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund's units, investment advice, as well as for general administrative expenses such as overhead, salaries, rent, legal and accounting fees relating to AGFI's role as manager.

	As a percentage of management fees		
	Annual rates	Dealer compensation	General administration and investment advice
Mutual Fund Units	1.00%	0.13%	99.87%
Series F Units	0.50%	-	100.00%

Administration Fees

AGFI bears all operating expenses relating to the operation of the Fund, except for certain costs as disclosed in the Fund's prospectus. In exchange, a monthly administration fee is payable by the Mutual Fund Series, Series F, Series FV, Series I, Series T and Series V Units, as applicable, based on the Net Asset Value of the respective series at the annual rates as follows:

	Annual rates
Mutual Fund Units	0.49%
Series F Units	0.35%

Past Performance\*

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. Note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

It is AGFI's policy to report rates of return for series in existence greater than one year. The performance start date for each series represents the date of the first purchase of such series, excluding seed money. During the ten year period ended September 30, 2024, certain other funds with similar investment objectives merged into the Fund. Generally, for fund mergers, the continuing fund is considered a new fund for the purpose of calculating rates of return and therefore, the rates of return have not been provided for the period of the merger and previous periods. However, the merger of Harmony Money Market Pool with the Fund in June 2019 did not constitute a material change to the Fund and accordingly did not impact the ability of the Fund to maintain its historical performance.

All rates of return are calculated based on the Net Asset Value.

Year-By-Year Returns

The following bar charts show the Fund's annual performance for each of the past 10 years to September 30, 2024 (interim performance for the six months ended March 31, 2025) as applicable, and illustrate how the Fund's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period.

\* The indicated rates of return shown here are the historical returns including changes in security value and reinvestment of all distributions and do not take into account sales, redemption, distribution or other optional charges by any securityholder that would have reduced returns or performance. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

## Mutual Fund Units

## Series F Units

## Series O Units

Performance for 2015 represents returns for the period from October 3, 2014 to September 30, 2015.

## Summary of Investment Portfolio

As at March 31, 2025

The major portfolio categories and top holdings (up to 25) of the Fund at the end of the period are indicated in the following tables. The Summary of Investment Portfolio may change due to ongoing portfolio transactions of the Fund and the next quarterly update will be in the Quarterly Portfolio Disclosure as at June 30, 2025.

Portfolio by Sector	Percentage of Net Asset Value (%)
Treasury Bills	88.8
Bankers' Acceptances	4.6
Corporate Bonds	3.7
Short-Term Deposits	2.9
Other Net Assets (Liabilities)	(0.0)

Portfolio by Credit Rating**	Percentage of Net Asset Value (%)
AAA	20.2
AA	68.6
A	11.2

Top Holdings	Percentage of Net Asset Value (%)
Province of Ontario**	39.3
Province of Quebec**	29.3
Government of Canada**	20.2
Bank of Montreal**	3.7
CIBC Mellon Trust Company**	2.9
The Bank of Nova Scotia**	2.5
The Toronto-Dominion Bank**	2.1

**Total Net Asset Value (thousands of dollars)** \$ 119,006
