

AGFiQ Overview

AGFiQ is a quantitative investment platform powered by an intellectually diverse, multi-disciplined team of investment professionals. AGFiQ offers asset management expertise in rules-based, factor-driven alternative and traditional investment strategies across a variety of risk and return objectives.

Philosophy and Approach

AGFiQ's quantitative philosophy and approach is based on the belief that outcomes can be improved by assessing and targeting the factors that drive market returns. Given this philosophy, the team's objective is to provide better risk-adjusted returns through our construction of innovative investment portfolios. A disciplined, transparent and repeatable¹ investment process guided by proprietary factor and risk models allows for intelligent and informed allocations in order to achieve investment objectives.

Our Expertise

Our expertise is in rules-based, factor-driven traditional and alternative investment solutions. The AGFiQ team manages factor-based strategies for a broad range of institutional investors, as well as acting as an Investment Advisor to a number of multi-factor ETFs and mutual funds. Within the team, there is turnkey operational expertise and the infrastructure available to manage mandates spanning across asset classes and vehicles. AGFiQ are also experienced ETF Strategists, with Managed Portfolios built on proprietary factor models and implemented across asset classes.

Investment Team

The AGFiQ investment team consists of 18 investment professionals focused on factor investing.
